

### Specifications

Sectional seating and tables designed with multiple back and side options of different height, thickness and material. Maple, Option A Exotic veneers and laminate are available on the back and sides. Differing heights and thicknesses create varying levels of privacy for the end user and can add architectural interest to large spaces. A flat back design allows the designer to specify the sections back-to-back. Formaldehyde free Catalyzed Polyurethane in all Cumberland finishes. An optional 0.5" solid surface top is also available on all thick walls or table surfaces. These products have been independently certified to meet or exceed ANSI/BIFMA X7.1/LEED EQ4.5 standards and as such can be used for LEED points. Seat depth is 20.75"

### Options – Specify:

- Top:** Maple veneer self-edge tops are standard. Thick walls are also available with a 0.5" Glacier White Solid Surface with an eased edge and matte finish.
- Wood:** Maple veneer is standard; Option A Exotic Veneers may be specified at an additional charge. Laminate is available upon special request.
- Corner Units:** Each Upholstered Corner Unit must be specified as Left Side Facing (LSF) or Right Side Facing (RSF).
- Finishes:** Standard and custom finishes with formaldehyde free Catalyzed Polyurethane topcoat. Cerused finishes are available on Ash for an additional charge of \$140 list per item. Note: All seating has a 1" wood platform at the bottom; so all pieces will require a finish choice.
- Metal:** Polished or Satin Stainless Steel. Statuary Bronze is available for an additional charge of \$375 list per item.
- Armrests:** Optional armrests can be attached to the end of any straight 1, 2 or 3 seat section. Specify as LSF, RSF or both sides. Additional cost of \$295 for each arm. These use the same fabric as specified on the seat and same metal finish as specified on legs.

### Overview and Application

#### Walls

- Back and side walls are Maple veneer. Option A exotic woods and laminate can also be specified. Option A exotic veneers have an upcharge.
- 4 heights; Bench-17", Chair-29", and 41" and 51" Walls.
- Two thicknesses of walls; thin is 1" and is the lower cost alternative. Thick are 7" and allows a more creative use of space as well as creating additional work surfaces for study or work materials.
- Different walls heights can be ganged together if that is the desired look.
- All items can be ganged with each other, but generally speaking if the desired look is to have all the backs flush, use the Thin with Thin and Thick with Thick. You can put Thin to Thick, but the Thick backs will be offset by 6". The seats are all the same depth.

#### Solid Surface tops

- ½" Solid surface material is available as an option on top of all thick walls and table surfaces. This adds ½" to the overall height of the table or wall. On the thick walls, this ½" sticks up above the upholstery.
- Glacier White is the standard solid surface color. Other Corian solid surface colors are available and Grades A-D are in the price list as Special Color upcharges. For other grades and colors please call for pricing.

#### Armrest Option

- Optional armrests can be attached to the end of any straight 1, 2 or 3 seat section. Specify as LSF, RSF or both sides. This will transform 2745-2748 into lounge chairs, 2749-2752 into 2-seat sofas and 2753-2756 into 3-seat sofas. Additional cost of \$295 for each arm. These use the same fabric as specified on the seat and same metal finish as specified on legs.

# Thick and Thin Modular

## Power Data Options

- **Table Top Power Data** is available in Satin, Polished or Statuary Bronze metal finishes. Unit contains 2-grounded simplex outlets, 15-amp circuit, (2) R45 cat 6 Data jacks, (1) RJ11 cat 3-phone jack, (1)- 3.5 mm stereo jack and (1) 15-pin VGA connector. All units have convenience receptacles for daisy chaining of multiple units. The device has a 10' power cord as a standard, but can be hard wired as an option upon request at no upcharge. Electrical connections and additional modules by customer. Unit is located in the center of the table.
- **Under Seat Mount Power Data** is only available in a black finish and contains (2) grounded simplex outlet, 15-amp circuit. The device has a 6' power cord and is not available hardwired. This unit is shipped loose and installed at job site in the desired location.
- **Ganged Airport Seating Power Data Arm** is available as an arm option. It is available in matte silver or black finish. Unit contains 2-grounded simplex outlets, 15-amp circuit, (1) USB Port, powered. The outlets have a 6' cord and the USB cord is 4' in length. Hardwiring is available as an option.

## Ganging Mechanisms and Installation Notes

- Each Thick & Thin item will ship with two ganging mechanisms by default.
- Ganging mechanisms, attached laptops, under seat power/data are all installed on site. Assembly instructions are provided.
- All items are shipped with levelers. Items will need to be leveled for the gaps between adjacent walls to be minimized and flush. Items need to be leveled before engaging ganging mechanisms.
- Inside Curved sections are quite large and ship assembled. Please check all entry clearances before ordering.

## Airport Seating

- Ganged seating allows for an infinite ganging of sections with a wide arm divider allowing a greater sense of privacy. The power data option with (2) 110 outlets and a powered USB port built into the arm allows users to power their laptops and charge PDAS and mobile phones.
- The Arm Dividers are options, (with and without power data) and need to be specified as a part number on orders.

## Overview and Features

## Corner Unit Fabric Directions

In order to create a consistent pattern across seats in the configuration, 90 degree square or curved seating with corner units using directional patterned or striped fabric should have the direction of the fabric specified in writing and with a sketch at the time of order. Each corner unit needs to be described as either a Left Side Facing (LSF) or a Right Side Facing (RSF). In the absence of specific instructions, Cumberland reserves the right to upholster units at our discretion and we cannot guarantee a match with the configuration that you are using.

**Left Side Facing  
Fabric Orientation**

**Right Side Facing  
Fabric Orientation**

## Fabric Orientation and Direction

The default direction of a directional patterned or striped fabric on the seat is always front to back on the seat and up and down on the backs. On all three-seat sectionals with any directional patterned or striped fabric, the stripe will run back to front.

## Multiple Fabric Charges

Multiple fabrics may be specified on the seat and the back; a \$125 list price upcharge applies. Please provide a sketch or signify clearly on the order, which fabric is the back and which is the seat. When specifying multiple fabrics in different price groups, the higher price material will be used for calculating the price. Note: The vertical seat face cannot be specified in a different material than the seat top.

## Yardage Calculations

Yardage amounts are based on fabric that is plain (i.e. non-directional) and a full 54" width. Large repeats may affect the quantity of the fabric that is needed.

## Fabric and Leather Stretching

Some fabrics and all leathers naturally stretch with use and seat fabric tautness will vary depending upon the amount of stretch in the fabric/leather. Because of this natural stretch, the seat may appear loose with comfort wrinkles over time. We have engineered the products to minimize this, but in some cases and with some fabrics and leathers this is unavoidable and not the fault of manufacturing.

## Fire Code Seating

Our upholstery standard is to meet the requirements set forth in the State of California Bureau of Home Furnishings and Thermal Insulations Technical Bulletin 117. However for an additional charge we will add the required materials to meet the requirements set forth in the State of California Bureau of Home Furnishings and Thermal Insulations Technical Bulletin 133. Those upcharges are shown below in list price per item. If product testing or testing documentation is required an additional charge will apply.

# Thick and Thin Modular

## Information required to specify

1. Model Number: \_\_\_\_\_
2. Description: \_\_\_\_\_
3. Quantity: \_\_\_\_\_
4. Wood Species/Laminate: \_\_\_\_\_
5. Seat Fabric/Leather: \_\_\_\_\_
6. Corner Fabric Orientation: \_\_\_\_\_
7. Metal Finish: \_\_\_\_\_
8. Wood Finish Color: \_\_\_\_\_

## Standard Includes

1. Maple veneer in any of our standard finishes
2. Metal Legs in Polished or Satin stainless steel
3. Matching seat and back Fabric/Leather
4. CAL117 Fire Code

## Options

Numerous options exist for each piece. Determine the options using the list below and add to your specification.

## Seating Options and Upcharges

1. Veneer Species: \_\_\_\_\_
  - a. Option A Exotic Veneer: \_\_\_\_\_ Add upcharge from Item Price Matrix
2. Fabric Orientation on Corner Units:
  - a. Left Side Facing Corner Unit: \_\_\_\_\_ Add suffix LSF to Model Number
  - b. Right Side Facing Corner Unit: \_\_\_\_\_ Add suffix RSF to Model Number
3. Metal Finish: \_\_\_\_\_
  - a. Statuary Bronze: \_\_\_\_\_ Add \$375 upcharge to item price
4. Arm Rest Option:
  - a. Left Side Facing, Qty 1: \_\_\_\_\_ Specify model 2744-LSF, +\$295
  - b. Right Side Facing, Qty 1: \_\_\_\_\_ Specify model 2744-RSF, +\$295
  - c. Left and Right Side, Qty 2: \_\_\_\_\_ Specify model 2744-LR, +\$590
5. Contrasting Back Fabric/Leather:
  - a. Back Cushion Yardage (0-1.25 yards per piece): \_\_\_\_\_ Add \$150 upcharge to item price
  - b. Back Cushion Yardage (1.26-2.74 yards per piece): \_\_\_\_\_ Add \$175 upcharge to item price
  - c. Back Cushion Yardage (2.75-3.5 yards per piece): \_\_\_\_\_ Add \$200 upcharge to item price
6. Power/Data:
  - a. Under Seat Mount, Power Only, Black: \_\_\_\_\_ Specify model 2801, +\$350
7. Solid Surface Top for Thick Wall:
  - a. Glacier White Solid Surface: \_\_\_\_\_ Add upcharge from Item Price Matrix
  - b. Grade A-D Corian (Special Solid Surface): \_\_\_\_\_ Add upcharge from Item Price Matrix
8. CAL133 Fire Code:
  - a. Back Cushion Yardage (0-1.25 yards per piece): \_\_\_\_\_ Specify CAL133, +\$165 upcharge to item price
  - b. Back Cushion Yardage (1.26-2.74 yards per piece): \_\_\_\_\_ Specify CAL133, +\$266 upcharge to item price
  - c. Back Cushion Yardage (2.75-3.5 yards per piece): \_\_\_\_\_ Specify CAL133, +\$365 upcharge to item price
9. Bolsters:
  - a. Bolster, Qty 1: \_\_\_\_\_ Specify model 2799, See Item Price Matrix

## Table Options and Upcharges

1. Veneer Species: \_\_\_\_\_
  - a. Option A Exotic Veneer: \_\_\_\_\_ Use Option A Price from Item Price Matrix
2. Metal Finish: \_\_\_\_\_
  - a. Statuary Bronze: \_\_\_\_\_ Add \$375 upcharge to item price
3. Solid Surface Top for Thick Wall:
  - a. Glacier White Solid Surface: \_\_\_\_\_ Add upcharge from Item Price Matrix
  - b. Grade A-D Corian (Special Solid Surface): \_\_\_\_\_ Add upcharge from Item Price Matrix
4. Solid Surface top for Table Top Surface:
  - a. Glacier White Solid Surface: \_\_\_\_\_ Add upcharge from Item Price Matrix
  - b. Grade A-D Corian (Special Solid Surface): \_\_\_\_\_ Add upcharge from Item Price Matrix
5. Power/Data:
  - a. Under Seat Mount, Power Only, Black: \_\_\_\_\_ Specify model 2801, +\$350
  - b. Table Top Power/Data; finish matches legs: \_\_\_\_\_ Specify model 2802, +\$575

## Airport Seating Options and Upcharges

1. Armrest:
  - a. Non-Powered: \_\_\_\_\_ Specify Model 2798, +\$200
  - b. Powered, Black or Silver Unit: \_\_\_\_\_ Specify Model 2804 and Unit Color, +\$675

To avoid the caterpillar effect with sectionals, Thick & Thin sofas, chaises and benches are offered in 2 and 3 seat sections. Triple seat sectionals are available with a partial length back wall or a full-length back wall. The partial back wall is a more economical choice if the back wall does not need to be extended beyond the section. Partial or full wall sectionals can be ganged with seat, table or bench units. On all three-seat sectionals with any directional patterned or striped fabric, the stripe or pattern will run back to front.

**Unique Product Options – Specify:**

Top: Thick walls can be specified with a ½" Corian top surface.

Available in either 90 or 45-degree sections. 29" and 41" walls can be ganged together, if that is the desired effect. The default direction of a directional patterned or striped fabric on the seat is always front to back on the seat and up and down on the backs.

**Unique Product Options – Specify:**

Fabric: In order to create a consistent pattern across seats in the configuration each corner unit needs to be described as either a Left Side Facing (LSF) or a Right Side Facing (RSF).

Top: Thick walls can be specified with a ½" Corian top surface.

**Straight Sections**

Designed by Charlie Kane of XLG

**Thick and Thin Modular**

Straight sections are available in 24", 48" or 75" lengths.

**Unique Product Options – Specify:**

Top: Thick walls can be specified with a ½" Corian top surface.

Armrests: Optional armrests can be attached to the end of any straight 1, 2 or 3 seat section. Specify as LSF, RSF or both sides(LR). Arms use the same fabric as the seat and same metal as on legs.

## Straight Tables

Designed by Charlie Kane of XLG

## Thick and Thin Modular

All tables can be used separately or ganged. They are available in three depths in order to coordinate with the different wall thickness offerings. The 27" Depth tables align with the inside of both Thick and Thin walls. The 28" Depth tables align flush with the outside of the Thin walls. The 34" Depth tables align flush with the outside back of Thick walls.

### Unique Product Options – *Specify:*

Top: Thick walls can be specified with a ½" Corian top surface.

Power/Data: Tables can be specified with an optional power data unit located in center of table.

## Thick and Thin Modular

Ganged Airport seating allows for an infinite ganging of sections with an optional wide armrest divider allowing a greater sense of privacy. The Arm Rests are options (with and without power) and need to be specified as separate part numbers on orders. These use the same fabric as specified on the seat. The power data unit is built into the arm and allows users to power their laptops and charge PDAS and mobile phones. It is available in matte silver or black finish and contains 2-grounded simplex outlets, 15-amp circuit, (1) Powered USB port and a 4' power cord.

### Unique Product Options – Specify:

Armrest Specify Arms or No arms, powered or non-powered arms, Silver or Black power units in arms.
