AD-VEC-514-WM

TYPE _____

FEATURES

The AD VEC 514 I WM is the wall mounted variation of this complete family of luminaires. A smooth laser cut welded end finishes the graceful contour of the extruded aluminum wing. The fixture is available in solid aluminum construction or can be provided with parallelogram slots for accent to indirect component. The computer designed optical system creates a wide asymmetric glare-free indirect component. These fixtures can be mounted individually, in continuous rows or patterns.

SPECIFICATIONS

Housing: Two piece heavy gauge extruded aluminum 6063T5 alloy welded construction forming a 5" x 9 1/4" vector profile. Decorative finished end caps are welded with no exposed hardware or knockouts.

Reflector: Die formed 20-gauge cold rolled steel minimum 90% reflectivity finished in high gloss baked white enamel.

Electrical: Ballast is electronic, high power factor, thermally protected class P, sound rated A, with less than 20% total harmonic distortion. The minimum number of ballasts will be used unless otherwise specified.

Mounting: Standard mounting holes are provided for ease of installation please see mounting details for specific locations in linear section.

Finish: Fixture housing and steel components are finished in baked white enamel applied over a five-stage pretreatment process.

Lamps: Fixtures are provided for use with one, or two 32 watt T8 lamp or 54 watt T5 HO lamp. (Supplied by Others)

Certification: Luminaires are U. L. Listed, C. S. A. certified and are Union Made in the United States of America I.B.E.W.
