

General Illumination AP-35-DI-WM

TYPE _____

FEATURES

The AP 35 DI WM series is a wall mounted version of the family of beveled steel luminaires. The AP 35 DI WM is designed for direct/indirect distribution to offset direct glare. This series can be mounted individually, in perfectly aligned continuous rows, or in any of combination of patterns. This series is available with a variety of down light shielding components. The AP 35 DI WM is complementary to all other members of the family providing maximum utilization of the unique shape throughout a space.

SPECIFICATIONS

Housing: Two piece die formed 20-gauge cold rolled steel welded construction forming a 3 1/2" x 7 1/2" beveled profile. Finished end caps are laser cut 18-gauge cold rolled steel, with no exposed hardware or knockouts.

Reflector: Die formed 20-gauge cold rolled steel minimum 90% reflectivity finished in high gloss baked white enamel.

Shielding: Parabolic louver is semi-specular low iridescence aluminum 1 1/4" x 4" O.C. with 12 cells per 4' section. Four spring clips secure snap in baffle including two tethers.

Electrical: Ballast is electronic, high power factor, thermally protected class P, sound rated A, with less than 20% total harmonic distortion. The minimum number of ballasts will be used unless otherwise specified.

Mounting: Standard installation is key slots 37 3/4" O.C. for ease of installation.

Finish: Fixture housing and steel components are finished in baked white enamel applied over a five-stage pretreatment process.

Lamps: Fixtures are provided for use with one, two or three 32 watt T8 lamps or 54 watt T5 HO lamps. (Supplied by Others)

Certification: Luminaires are U. L. Listed, C. S. A. certified and are Union Made in the United States of America. I.B.E.W.
