GRACEFUL
SIMPLICITY

Enea Lottus

CONVENIENT COLLABORATION

The lines. The clarity. The grace. You see it all in Enea Lottus, a new standard for casual collaboration at work.

From the renowned European studio of Lievore Altherr Molina / Barcelona, Enea Lottus is a flexible, multi-height collection of chairs and tables that integrates simply and cleanly with any space.

It invites collaboration: The touchdown meeting. The impromptu work session. The cafeteria conference.

Comfortable, stackable, and versatile, with a wide palette of color and finish possibilities, Enea Lottus is a durable beauty, an inviting response to the way we work.

Always think of what is useful and not what is beautiful. Beauty will come of its own accord.

_ Nikolai Gogol

Business is more social today. Workers are more mobile. Enea Lottus transforms space into place. For casual meetings or entire social scenes.

FOUND SPACE

Enea Lottus brings a simple, clean aesthetic to the socializing of workplaces. A new classic, it embodies a sense of harmony and balance without a shred of pretense.

Sturdy, honest, graceful, and intellectually satisfying, Enea Lottus is compatible with almost any design, adapting effortlessly to office systems, other furniture, walls, and lighting.

Casual furniture at this price point is seldom as cultivated and well-engineered. Enea Lottus evokes a sense of quality that rises above the category.

Perfection is achieved, not when there is nothing more to add, but when there is nothing left to take away.

— Antoine de Saint-Exupéry

SITTING PRETTY

The Enea Lottus chair is sculpted for comfort with just the right flex. Its elegant shell can stand alone or be customized with a colored insert or upholstered cushion, introducing a European café flair.

Most people are surprised by the comfort when they first sit on an Enea Lottus chair or stool. Fabricated of high-quality polypropylene, it is thicker and thinner in exactly the right places for ideal flex and support.

When spaces change, Enea Lottus follows. The chairs are durably stackable at six to ten high for compact storage. The tables, while satisfyingly solid, are lightweight and easy to move.

PRODUCT LINE ELEMENTS

Enea Lottus chairs are available in armless, cantilevered, and loop arm. Seat can be poly shell, poly shell/poly insert, or poly shell/upholstered insert. Stools are available in two styles (sled and post) with bar and café heights.

Enea Lottus tables are offered in occasional, standard, bar, and café heights and assorted widths.
