

Perimeter

WPP-1175

TYPE _____

FEATURES

The WPP 1175 series is a wall wash luminaire engineered to illuminate the wall from a set distance and increasing the light levels on product and wall. The WPP 1175 is mounted away from the wall recessed in the ceiling to minimize obstruction. Wall washing and highlighting achieving the ultimate wall wash with little to no emphasis on wall imperfections and reducing shadows. Another unique product for the wall washing applications by Day-O-Lite.

SPECIFICATIONS

Housing: Die formed 20 gauge cold rolled steel fixture is 5 1/2" x 11 3/4" welded construction. Joiner ends are notched below the lamps for a continuous appearance. Housing has an access plate on top with two 7/8" knockouts.

Reflector: Standard front reflector is die formed .025 semi-specular anodized aluminum, rear reflector is specular aluminum.

Electrical: Ballast is electronic, high power factor, thermally protected class P, sound rated A, with less than 20% total harmonic distortion. The minimum number of ballasts will be used unless otherwise specified.

Mounting: Recessed mounting for grid or flange ceilings.

Finish: Fixture housing and steel components are finished in baked white enamel applied over a five-stage pretreatment process.

Lamps: Fixtures are provided for use with one or two 32 watt T8 lamps, 28 watt T5, or 54 watt T5 HO lamps. (Supplied by Others)

Certification: Luminaires are U. L. Listed, C. S. A. certified and are Union Made in the United States of America I.B.E.W.
