THE PERFECT NESTER

Rocky

The art of teaching is the art of assisting discovery.
_Mark Van Doren

Rocky is perfectly suited for use in classroom settings, conference and training rooms, and multi-purpose and touchdown spaces.

HIP APPEAL

Smart, simple and modern, the Rocky articulated molded bucket chair swivels and tilts in style and comfort. With a nod to its Retro roots, Rocky builds in an advanced patented design with a reasonable price point. Its height adjustable seat and ability to swivel make it the highest performing nesting chair in the

conference or training room. And the hip appeal? This collection boasts hip-pivoting springs designed to caress your back, while providing excellent lumbar support.

DETAILS

The statement of line includes nesting chairs and stools, and jury base options. The memory-return jury base is available for lecture and classroom environments. When there's no need for nesting, Rocky 5 star meets your requirements. And to continue the him appeal of the Rocky

family lineage, there's the Rocky 5 Star Stool that naturally moves and flexes in response to twists and turns. The light Rocky base is one piece, and is made of glass-filled nylon.
