BREATHE LIFE
INTO WORK

—
Denizen

WORK WITHOUT LIMITS

For ideas people, work and life have merged. That's why live/work is now the most exciting category in contract furniture. And Denizen™ casegoods are the defining line, an elegant response to a desire for productive mobility. Crafted and designed with a residential feel, Denizen is inspiringly simple, intelligently functional, and environmentally responsible.

For designers, it offers a whole new palate of scalable possibilities. For users, Denizen liberates the workplace with a seductive proposition. Beautiful anywhere. Home or office. Inspiration, every day.

Minds are like parachutes, they only function when they are open.
 _Thomas Robert Dewar

With Denizen, space can be artfully adapted so work and life coexist comfortably. Denizen doesn't tell you when to work or where to work. It provides options. Erases boundaries. Opens doors.

BORDERLESS THINKING

Denizen fits as naturally in the office as it does the living room. A workplace warms up with familiar residential sensibility. A home/work environment takes on functional flow, with an attitude of performance and the seamless porting of technology.

Work. Play. Collaborate. Contemplate. With Denizen there are no borders. Each piece is a handsome convertible that invites mobility. Flavorful yet restrained. Classic simplicity with new energy. This is the balance discerning people seek.

What art offers is space—a certain breathing room for the spirit.

— John Updike

INSPIRED CRAFT

Hand-crafted from the finest veneers, Denizen casegoods amplify the inherent beauty of wood, evoking a richness not commonly found in contract furniture. Natural grain patterns are finished minimally for a warm, honest look and satisfying feel. Well-built components, dramatically juxtaposed, delight the eye with their graceful utility.

Every detail and touch point has been considered. Door pulls are tastefully recessed. Drawers and doors are softly self-closing. Pull-out shelves harbor technology covertly.

Wire management is built into Denizen with clever plug-and-play solutions that eliminate visual clutter while conveniently accommodating the technologies of work and play.

*Understanding human needs is half the job
of meeting them.*
_ Adlai E. Stevenson Jr.

*There are no passengers on Spaceship Earth.
We are all crew.*

—Marshall McLuhan

People who live by ideas want inspiring environments. Designed to last a lifetime, Denizen improves the creative environment while reducing its impact on the one we share.

BEAUTIFULLY RESPONSIBLE

Premium sustainability has been coded into the Denizen DNA. All veneers are sustainably harvested and minimally finished with low-VOC coatings. Trivalent chrome plating process is used on metal parts. Most importantly, Denizen furniture is built to last for generations, a collection of modern heirlooms. Denizen is SCS Indoor Advantage™ Certified. All veneers are from sustainably managed forests.

Ultimately, Denizen is an investment in time well spent. With its range of function and original aesthetic, it doubles the value of any space while opening a new door to personal productivity. Elegant. Rewarding. Responsible. Denizen brings life to work and work to life.

SYSTEM LOGIC

Denizen

STORAGE
A range of residentially inspired storage elements that supports conventional storage requirements and personal display.

DISPLAY
Wall-mounted display surfaces with dimensional relationships to the storage components support work in progress.

BENCHES
Primary platform to support storage and large-scale displays. Secondary surface for piling, book storage, and peripheral support. Manages cables and cords from wall to furniture and/or displays.

TABLET TABLE
Creates a small-scaled repositionable surface for laptop work and for lounge-based individual work.

BENTO BOX

Allows for storage of small accessories and personal items. Bento Boxes can be used with overheads, secretaries/credenzas (above or in file drawers), console tables or on benches.

SECRETARIES AND CREDENZAS

Work zone for an individual that is optimized for use in concert with large-scale display monitors / computers and laptops for hosting teams and technology.

OVERHEADS

Wall-mounted overhead storage with a range of cubby storage has a dimensional relationship to bench elements and freestanding storage.

CONSOLE TABLE

Provides additional pile management and a secondary work surface. Console table utilizes the Bento Box for the storage of small accessories.

CONFERENCE / WORK TABLES

A range of tables to support both collaborative and individual work. Multiple sizes and heights enable varied postures and applications.

SLIP-FIT CAPABILITY

Slip-fit capability allows storage units, wardrobes, secretaries, and credenzas to be positioned over the bench, allowing adjustment to any room dimension.

WIRE MANAGEMENT

Built-in wire management throughout the elements of Denizen simplifies cable management and integration.

APPLICATIONS

Designers can specify traditional or non-traditional arrangements with Denizen. Below are a number of possibilities that bring new life to work.

HOME OFFICE / LIVING ROOM

CONFERENCE / MEETING AREA

SHARED OFFICE WITH COLLABORATION AREA

LIBRARY / DINING ROOM

HOME OFFICE WITH COLLABORATION AREA

HOME OFFICE / PRIVATE OFFICE

PRODUCT LINE ELEMENTS
