Grain and Color

Detour is produced as individual, modular components and therefore not finished as assembled configurations. Coalesse will match grain within a single configuration for a minimum 15% custom upcharge, but cannot assure grain match from one component to the next. Standard product is not grain matched. Due to natural grain variations, color variances may be perceptible. Such color variances may also be apparent due to polarization – an optical illusion caused by the way light reflects off of woodgrain under different lighting conditions. This effect may be more visible in maple products.

Tagging

Tagging information must be included on your purchase order for all orders with multiple office configurations. Components for identical office configurations should be grouped together on consecutive lines. Begin a new series of line items for each new office configuration. Each office number must be clearly listed on the tagging.

Example:

Tag – Offices 1101, 1102, 1103, 1104

Keying alike

Coalesse will key alike all Detour moped stations as standard, when tagging information is provided as noted above. Lock plugs are field installed by the dealer. Lock plug packages (keyed alike) are shipped inside a drawer order for each office configuration. Lock numbers from TA100 to TA149 are standard. Additional lock numbers are available upon request at time of order placement.

Detour supports a variety of postures by providing a range of heights and proportions that respond to the human scale and relate to the workplace landscape; designed for dimensional compatibility with Steelcase Pathways based products.

Detour Table Desks

Table desks are available in two shapes and sizes. They support independent work or combine to form shared work-surfaces for teams.

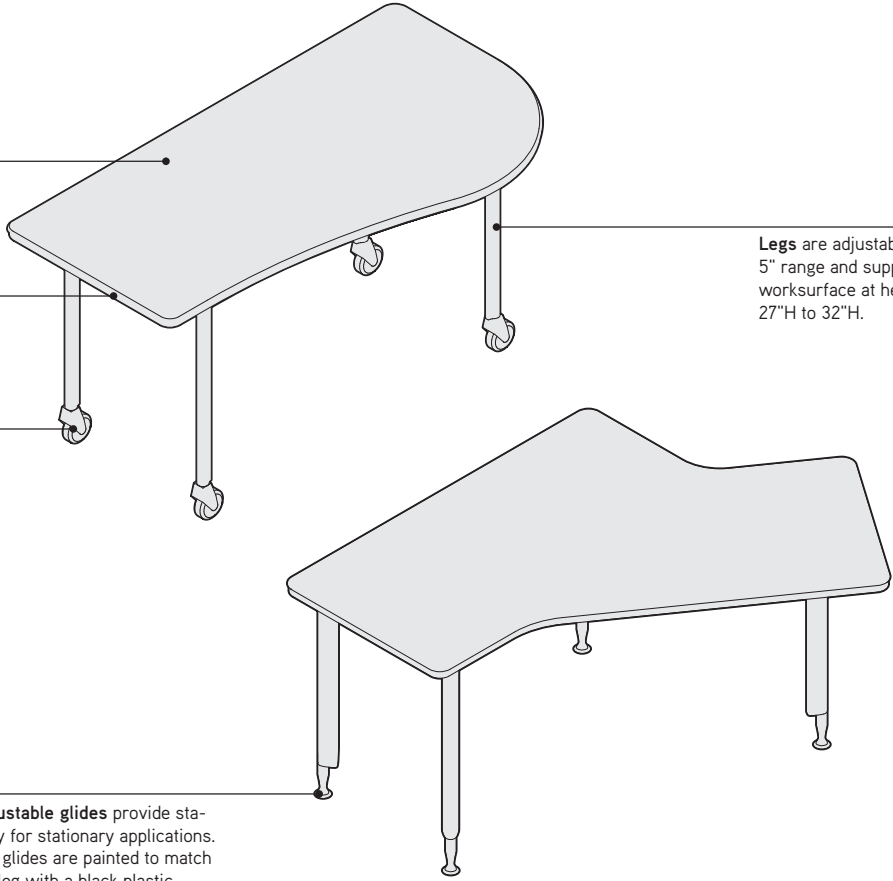

Top has a wood core with a laminate or wood veneer surface.

Plastic edge provides durability for active work settings. It is available in black or gray.

Non-locking casters provide ease of movement. Locking casters are available.

Legs are adjustable within a 5" range and support the worksurface at heights from 27"H to 32"H.

Adjustable glides provide stability for stationary applications. The glides are painted to match the leg with a black plastic bottom. Glides adjust 3/4".

Actual Dimensions

	Depth	Width	Height	Worksurface Thickness
Jetty desk	24"/30"	58"	27" – 32"	1 1/4"
Open diagonal desk	24"/48"	58"	27" – 32"	1 1/4"
Pivoting drawer	11"	5 3/8"	11 7/8"	N.A.

Product Details

Worksurface is available in two shapes and each shape is available in right- and left-hand models.

Edge is in black or gray plastic.

Height-adjustable leg has integrated fasteners that secure legs in 1" increments for worksurface heights from 27"H to 32"H.

Locking hard-wheel casters are optional to allow the user to move the table where it is needed and lock it into place.

Adjustable glides provide stability for stationary applications. The glides are painted to match the leg with a black plastic bottom. Glides adjust $\frac{3}{4}$ ".

Pivoting pencil drawer is optional on mobile desks. It swings out for access and has compartments to accommodate pens, pencils, paper clips, and other small items.

Flexible modesty screen flexes in two positions providing a non-handed, user adjustable solution.

Connections

Tables are shipped knocked down (K.D.) and require field assembly of legs.

Wiring & Cabling

Rectangular grommets are optional on open diagonal desks, factory installed, in left or right locations to allow power cords and cables to pass through the top. The grommet is 2"D x 4"W.

Flexible wire manager is available on desks with grommets to conceal and organize cords and cables below the worksurface in open work settings. The standard length accommodates a 32"H worksurface height. However, individual clip elements can be removed in the field to accommodate shorter worksurface heights. It is standard with a weighted base section and a table-fixing element.

Surface Materials

- Top**
- Laminate (grade 1 or grade 2)
 - Wood veneer
 - Custom wood finish (option on wood)

- Edge**
- Black plastic
 - Gray plastic

- Legs**
- Paint

- Glides**
- Paint

- Casters**
- Paint

- Flexible modesty screen**
- Light gray fabric
 - Dark gray fabric

- Pivoting pencil drawer**
- Black plastic only

- Grommet**
- Black plastic
 - Gray plastic

Tip: The grommet color matches the selected edge color.

- Flexible wire manager**
- Black plastic only
