The Ballet is a versatile table series that provides solutions for a variety of applications: conference, training, workplace, dining, utility. A feature of the design is that the tables, with two base options, are available in folding versions as well as fixed versions.

Base: "X" base, "K" base, fixed or folding. Base leg assemblies are constructed of an inner column and one-piece die-cast aluminum leg and arm section. The leg assemblies are joined by a cast aluminum cross bar. Base feet have adjustable, non-marring black nylon glides. Vecta powder coat finish.

Top: Veneer or plastic laminate.

Edge: Custom ribbed black vinyl edge with ABS plastic corner insert. Flat solid wood edge.

Shape: Rectangular in 20", 24", 30", 36" and 42" widths.

Height: 28½" conference/dining.

Design: Douglas Ball
