Enea Collection

ENDLESS OPTIONS

The durable Enea collection boasts a simple, yet elegant design. Its beautiful aesthetic, combined with the extensive line of multi-height tables, chairs and stools, make the Enea collection the solution for many hospitality, learning, café and corporate environments. It can easily be integrated within any space.

From schools to offices, restaurants to lecture halls, cafés to touchdown spaces, the Enea collection caters to the most diverse and varied requirements.

Comfortable, stackable, and versatile — with a wide palette of colors and finish possibilities — the Enea collection offers elegant simplicity with endless options.

Interdependence is and ought to be as much the ideal of man as self-sufficiency. Man is a social being.
_Mohandas Gandhi

As business becomes more social and work becomes more mobile, the need for casual meeting spaces at the workplace will continue to increase.

SOCIAL SCENES

The Enea collection is as well-engineered as it is beautiful. It is casual furniture for touchdown meeting spaces and cafés.

Sturdy, graceful and flexible, the Enea collection can be specified to work with almost any décor.

Enea's essential form is simple and comfortable, yet offers a sense of elegance that is unmatched in its class.

"I am where I am because I believe in all possibilities."
_Whoopi Goldberg

The Enea seating collection was designed with comfort and class in mind. Its elegant shell can stand alone or be customized with an upholstered option for a European café flair.

COMFORTABLE CLASS

The Enea chair has a higher back height than most side chairs which lends itself to a greater level of comfort and support. It is stackable up to 9 chairs high for easy storage and mobility. Enea's clean back detail is perfect for open plan layouts. The beautiful joinery that attaches the frame to the back is maintained throughout the collection.

Enjoying the same variety of options as Enea stacking chairs, the barstool is also versatile and beautiful. The slender metal frame with a contoured seat and back creates an alluring silhouette.

The frame is mirrored on the Enea table collection giving designers a complete and flexible environment with a consistent design aesthetic.
