Introduction

A Note on the Organization of This Book

There are a few signals that will help you understand the organization of this book. Once you know them, you should be able to find your way around easily.

Like a newspaper, this book is formatted with columns of text and illustrations that run vertically.

Information wraps from one column to the next and continues for as many pages as it needs to.

Black bars are clues.

A black bar at the top of a page signals the start of information about a product.

This information is divided into two sections, each signaled by a black bar. Product Information includes a description, additional notes, and dimensional drawings. Specification Information, which always begins at the top of a column, includes a series of steps. Each step represents a decision you need to make in order to complete your product number. Steps must be followed sequentially. The number of pages needed to complete information on a product varies; some will be complete in one page; others may fill three or four pages. Just continue going through the steps until you run into the next product, signaled by the black bar at the top of the page.

Black tabs running along the outside edge of the page help you locate what section you are in or what section you want to go to. You can thumb forwards or backwards to find a section; tabs and text appear on both sides of the page.

The additional pages in the back of the book include the appendices and indices. They are signaled by a long black bar running along the outside edge of the page.

The index is presented two ways.

The first index is in alphabetical order by product name. It can be helpful if you are new to the products and numbering scheme or if you are looking for a type of product, such as work chair or round table. The second index is by product number. It lists, in alphanumeric order, the base product number, typically a five-digit number.

General Information

This book is effective September 6, 2011, subject to change without notice. Products may be purchased from authorized Herman Miller dealers who will quote prices upon request. For more information about our products and services or to see a list of dealers, visit www.HermanMiller.com.

All prices are list prices. Additional services, such as planning services, design, storage, and installation, are not included and must be added to these prices when the additional services are requested.

Illustrations, specifications, and prices are based on the latest information at the time of publication. The right is reserved to make changes at any time without notice in prices, fabrics, finishes, materials, specifications, and models, and also to discontinue models and finishes.

Dimensions shown in the drawings are engineering drawing dimensions rounded up to the nearest $\frac{1}{8}$ ". Product is shipped set up or knocked down. Products that include "Shipped knocked down" in the description require some assembly. If this statement does not appear in the description, the product is shipped assembled.

Service problems are normally handled by a Herman Miller authorized dealer. Where this cannot be accomplished on a local level, service problems should be referred to the Customer Care Representative for your region, Herman Miller, Inc., Zeeland, Michigan 49464.

20-Day or Less/Assigned Lead-Time Shipments

All products and options in this price book not designated by an Assigned Program icon  will ship in **20 business days or less** after being acknowledged by Herman Miller.

Products and options designated by an  are on the assigned lead-time program and may ship in 20 days, less than 20 days, or more than 20 days from order acknowledgement.

Eames® Molded Plywood Dining Chair Metal Base

DCM.

Product Information

Description

This 29½"-high molded plywood chair has natural face veneers, hardwood inner plies, and a 5-ply seat and back. It has a 4-leg base and self-leveling nylon glides. When upholstered, the back and seat shells have exposed veneer on their backside.

Notes

Red stain (11) shell finish is on birch veneer. This stain allows the wood grain to show through; inner plies are visible. Natural variations in wood grain may affect the appearance of this stain color.

Ebony (EN) shell finish is stain on ash veneer; inner plies are not as visible.

Black (BK) base finish has black glides. Trivalent chrome (47) base finish has white glides.

Avoid placement in direct sunlight.

Customer's Own Material (COM) requires 1 yard. Customer's Own Leather (COL), requires 14 square feet. See COM Information in Appendices for additional information.

Eames® Molded Plastic Side Chair

DSR.
DSS.
DSW.
DSX.

Product Information

Description

This chair has a single-piece shell with waterfall edges and molded seat and flexible back. Base options include a wire base, 4-leg base, a dowel-leg base, or a stacking base which can gang together. The dowel-leg base has non-adjustable nylon glides.

Notes

Ebony (EN) dowel legs are stained ash wood with black glides.

Maple (Z5) and walnut (OU) dowel legs have white glides.

Stacking base chairs can stack up to 14 high. For ease of mobility, two types of dollies are available, but sold separately.

Eames® Molded Plywood Lounge Chair Metal Base LCM.

Product Information

Description

This 26½"-high molded plywood chair has natural face veneers, hardwood inner plies, and a 5-ply seat and back. It has a polished chrome-plated 4-leg base and self-leveling nylon glides. When upholstered, the back and seat shells have exposed veneer on their backside.

Notes

Red stain (11) shell finish is on birch veneer. This stain allows the wood grain to show through; inner plies are visible. Natural variations in wood grain may affect the appearance of this stain color.

Ebony (EN) shell finish is stain on ash veneer; inner plies are not as visible.

Black (BK) base finish has black glides. Trivalent chrome (47) base finish has white glides.

Avoid placement in direct sunlight.

Customer's Own Material (COM) requires 1 yard. Customer's Own Leather (COL), requires 14 square feet. See COM Information in Appendices for additional information.

Eames® Molded Plywood Lounge Chair Wood Base LCW.

Product Information

Description

This 26½"-high molded plywood chair has natural face veneers, hardwood inner plies, a 5-ply seat and back, and 8-ply legs. When upholstered, the back and seat shells have exposed veneer on their backside.

Notes

Red stain (11) shell finish is on birch veneer. This stain allows the wood grain to show through; inner plies are visible. Natural variations in wood grain may affect the appearance of this stain color.

Ebony (EN) shell finish is stain on ash veneer; inner plies are not as visible.

Avoid placement in direct sunlight.

Customer's Own Material (COM) requires 1 yard. Customer's Own Leather (COL), requires 14 square feet. See COM Information in Appendices for additional information.

Burdick Group® 1/2-Round Work Surface

BG118 BG123 BG127

Product Information

Description

This 36"-diameter surface attaches to a beam. Its top surface is either laminate with black edge band, glass, or stone. Attachment brackets are included.

Notes

Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks-if not already visible at time of purchase-may appear. Small cracks do not affect the structure of the tabletop.

Eames® Square Table, Universal Base

ET604

Product Information
Description
This 28½"-high table has a ¾"-thick stone top. Each table has adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.
Notes
Stone top has a honed finish and full bullnose edge profile. Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks-if not already visible at time of purchase-may appear. Small cracks do not affect the structure of the tabletop.

Eames® Wire Base Low Table

LTRT.

Product Information
Description
This table has a 7/8"-thick laminate or veneer surface with 13-ply Baltic birch core, or 3/4"-thick stone. The base is either powder-coated or chrome wire.
Notes
Stone has a honed finish and knife edge similar in profile to the Baltic birch core edge.
Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks-if not already visible at time of purchase-may appear. Small cracks do not affect the structure of the tabletop.

Eames® Table Universal Base

ET560
ET580

Product Information

Description
This outdoor table has a 3/4"-thick stone top. Each table has adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top has a honed finish and full bullnose edge profile.
Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks-if not already visible at time of purchase-may appear. Small cracks do not affect the structure of the tabletop.

Eames® Table Contract Base Round Outdoor

ET560
ET561
ET580
ET581

Product Information

Description

This outdoor table has a $\frac{3}{4}$ "-thick stone top. Each table has adjustable glides. Ships knocked down with assembly required. Top and base components ship in separate packages.

Notes

Stone top has a honed finish and full bullnose edge profile.

Natural characteristics in stone cause variations in hues, veins, crystals, and distinctive marks. These variations and subtle changes seen as the stone ages are values associated with natural materials. No two tabletops are identically the same; variations in both color and veining are to be expected. Over time the stone may fade in color, staining of the surface may appear, and surface cracks-if not already visible at time of purchase-may appear. Small cracks do not affect the structure of the tabletop.
