STANCE | HEALTHCARE

kindred series

The Thermoformed Edge:

Kindred series cabinets from Stance Healthcare feature thermoformed components with a soft woodgrain appearance... creating a feeling of warmth in any healthcare environment!

Thermoformed components are created by using vacuum technology to "wrap" thermofoil laminate around edges, while pressing it into surface contours to achieve a subtle, seamless appearance.

Kindred series cabinets are being welcomed into the healthcare market for a reason that goes beyond good looks: thermofoil technology eliminates bacteria-collecting edge laminate - a growing concern in today's healthcare environment.

The Kindred line contains a wide range of matching product designs as shown below:

- Bedside tables
- Dressers
- Wardrobes
- Desks
- TV cabinets
- Head and foot boards
- Wall Mirrors
- Overbed tables

All available in 7 attractive woodgrain finishes.

Bedside table, drawer and open fixed shelf
