

CAST
DESIGNS & SUPPLY
FINE ARCHITECTURAL PRODUCTS

Cast Designs & Supply manufactures decorative moulding, millwork, and architectural products made from gypsum (plaster) and reinforced with hemp fibre for exceptional durability. Our products include crown molding, domes, fireplace mantels, medallions, niches, capitals, columns, panels, corbels, brackets, appliques, panels, cartouches, table bases, rosettes, and many other accents and accessories. As a member of the U. S. Green Building Council, all of our products are Green and completely organic while maintaining a Class II fire rating. From homes to commercial projects, our products have been the premier product of choice since 1985 by America's most discriminating home buyers, architects, interior designers, and residential/commercial contractors. Explore our offerings on-line to see how we can assist you with your architectural, design, and restoration needs.

WORLD CLASS CRAFTSMANSHIP WITH INTEGRITY

MOULDING

With over 100 different designs from which to choose, our easy to install custom architectural trim molding can be used as floor baseboard, ceiling crown, wall trim, and even window, door, or picture frames.

CARTOUCHES & APPLIQUÉS

Used alone or as a decorative accent, our cartouches and appliques provide a unique hand-carved look to your design application.

MANTELS

Our decorative interior fireplace mantels combined with our over-mantel designs provide hand-sculpted classic designs ranging from simple, antique designs to the most grand and ornate models.

PANELS

Our decorative panels range from architectural ceiling systems like the Adams British Neoclassical architectural ceiling to various hand-sculpted wall panels.

DOMES

Create a dramatic decorative change to any room with our architectural domes ranging in diameter from 21 inches to 10 feet and having depths up to 5 feet.

CORBELS & BRACKETS

Used as fireplace pilasters, door headers, or drapery brackets, our extensive selection of corbel and bracket designs range from those less than 3 inches in height to some over 4 feet.

MEDALLIONS

Our decorative ceiling and wall medallions that can be used above the canopy of a lighting fixture or ceiling fan to add architectural elegance to any room.

RINGS

While designed to increase the depth and effect of our domes, our rings can be used independently to create a stunning decorative addition to any ceiling or wall without alteration of the mounting surface and structure.

CAPITALS

Combined with your custom columns, our decorative architectural pilaster accent capitals span from Ionic to Corinthian inspiration while providing historically accurate designs.

ACCENTS

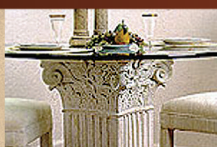

Create a focal point or enhance an existing doorway, mantel or wall with our extensive library of accent pieces.

NICHES

Our niches can be used as an interior gallery wall niche or even a creative bathroom shower niche. Each comes with an installation template that allows you to fit your niche between 16" on-center studs.

TABLE BASES

Inspired by our exquisite offering of capitals, our table bases can be used alone, with a glass top, or as a corner accent.

WHY PURCHASE FROM CAST DESIGNS & SUPPLY?

- 1. Cost :** While there are not substitutes for many of our designs, our cast products are less costly than wood and polymer-based substitutes due to our processes and product components.
- 2. Environmentally Green Product:** Made from gypsum, water, and hemp fibre – all found naturally on or in the earth's surface.
- 3. Class II Fire Rating:** Our product will not burn.
- 4. Distribution:** We ship directly to you from our factory – providing you the lowest cost and the quickest delivery.
- 5. Handcrafted in USA:** Each product is cast, finished, and inspected by one of our master craftsmen in our Tennessee factory.
- 6. Authenticity:** Our exquisitely detailed products provide the appearance and feel you expect.
- 7. Easy to install:** It installs like wood, so you can miter corners, nail or screw it to your structure, and patch.
- 8. Diversity of Products and Designs:** Our vast library provides you the variety to meet almost any architectural product need all within a single source.
