

# Villa™

Expanding the very notion of modern lounge furniture.

“VILLA IS ABOUT BRINGING

FLEXIBILITY AND STYLE

TO PLACES WHERE PEOPLE GATHER. ALTHOUGH

THE DESIGN IS SIMPLE,

THE OPTIONS ARE ENDLESS.”

**KEITH METCALF**

**SENIOR PRODUCT  
DESIGNER**

Kimball Office Design

## FROM BASIC GEOMETRY COMES BOUNDLESS OPPORTUNITIES.

It's no secret. A significant part of Villa's inspiration is to be found in the wonderful, open-ended simplicity of ordinary building blocks. Based on this fundamental approach, there's an extraordinary freedom at play in our versatile collection of contemporary lounge furniture. Villa's elements—including chairs, privacy-back seating, ottomans, tables, benches, and data management components—are endlessly configurable. And, in perfect keeping with what sparked our creativity in the first place, the line even provides you with inviting youth-sized units.

While the attitude is very much about the fun of exploring alternative designs and arrangements, Villa is a serious answer to the needs of virtually any space. From expansive open areas to small private niches, a Villa lounge makes for a welcome setting in offices, educational environments, healthcare facilities, and elsewhere.

Where, exactly? That's up to you. But the following pages are full of stimulating ideas.

## 6-7

A comprehensive lounge program

## 8-9

Sustainability is built in

## 10-11

Private, well-connected, or in-between

## 12-13

Alternative work and meeting zones

## 14-15

Unified spaces for adults and children

## 16-17

Occasional tables expand the possibilities

SEE THE VAST

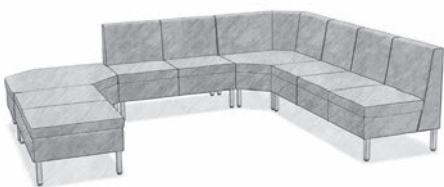

# POSSIBILITIES TAKING SHAPE

BEFORE YOU.

Kimball®Office

Yes, Villa is ideal in all the places you'd expect: lobbies, reception, community spaces, and huddle rooms.

But it also empowers you to create uniquely functional groupings for socializing, studying, meeting, and more. In other words—think way beyond the typical lounge.

U-shaped lounge keeps the conversation flowing

One-seat lounge + two-seat bench = chaise lounge

Large column? Work around it with Villa two-seat lounge and wedge tables

## VILLA. THE VERY DEFINITION OF VERSATILITY.

With clean, crisp lines, Villa's modern aesthetic blends seamlessly into a full range of today's settings. But the story is about far more than possessing the right contemporary looks to go anywhere.

Villa epitomizes versatility. Present in this single line is a planning solution that addresses a comprehensive variety of lounge seating needs and market applications. Further, it provides the flexibility that's a must for always-changing work environments. It's easily adaptable as business needs evolve. Plus, the fact that it meets or exceeds heavy-duty weight requirements within the standard line gives you further validation of Villa's ability to work confidently in all situations.

Curvaceous benches form separate conversation nooks

Include everyone in the discussion

A wide crescent arrangement nestles neatly into a corner

## A SUSTAINABLE ALTERNATIVE TO LINEAR THINKING.

What effect would something other than straight lines and 90° angles have on the feel of your space? With Villa, you have the ability to bring an incredible variety of very accommodating curves to your designs.

With the pun well intended, Kimball Office is ahead of the curve—and industry—with Villa's broad vocabulary of crescent benches, wedges, triangular tables, and other intriguing shapes. Speaking to sustainability, we're out in front there, too. Villa is an SCS Indoor Advantage™ Gold certified product. Villa tables are ANSI/BIFMA level<sup>®</sup> 3 certified. And, lounge units are certified BIFMA level<sup>®</sup> 2. In fact, you can validate these and other environmental attributes in minutes at [kimballoffice.ecoscorecard.com](http://kimballoffice.ecoscorecard.com).

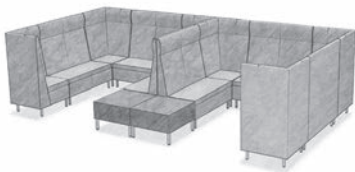

# ALTERNATIVE

## A SENSE OF PRIVACY IN AN OPEN SETTING.

A lot happens in a lounge beyond waiting alone with a magazine. With Villa, any lounge can contain spaces that look, feel, and are indeed more private where quiet conversations can happen quite naturally.

By incorporating the privacy-back components of Villa, you can easily divide any one space to accommodate multiple purposes. Depending on the environment, you may have needs for family waiting, professional consultation, team meetings, group brainstorming, social interaction, and more. As vital as privacy is, so too is the sitting experience. That's why the Villa firm seat is ideal for more demanding environments, while the soft seat alternative provides comfort options to meet the needs in a full range of settings.

Privacy-back lounges form a semi-private meeting niche

Make an impromptu meeting alcove anywhere in the open plan

Privacy-back lounges can replace some "tables and chairs" meeting rooms

## POWER TO (AND FOR) THE PEOPLE.

How do power and data, healthy movement, and cost of ownership issues correlate?

As you are about to learn, they correlate quite nicely around Villa.

Villa offers tables that integrate power and data access, plus chairs with tablet arms, so that individuals who want to work away from their desk can still be productive. Using Villa privacy-back pieces, you can delineate alternative zones for team collaboration outside a classroom or office. Whether in an educational setting or business environment, a relaxing change of scenery, coupled with the benefits of movement throughout the day, is healthier for people. Their satisfaction, in turn, benefits the bottom line.

Villa two-seat lounges combine with a Priority™ table to create a versatile booth

One-seat mobile lounge has cupholders, tablet arm, and front casters

A cozy and private booth is formed with two-seat privacy-back units and a Priority table

Villa Youth lounges can be ganged to full-size units where generations mingle

Tall or small—Villa privacy-back and youth lounges are an aesthetic match

Make use of the space around architectural abutments with Villa

# YOUTH

## A VERY BIG IDEA: VILLA YOUTH.

In a lounge setting, or the world at large, it's often the smallest details that make the greatest difference. Imagine not only the delight created, but the difference it would make, to add age-appropriate furniture to your spaces.

An aesthetic match to its full-size counterparts, Villa Youth forms children's environments or gangs with adult units—giving designers the ability to maintain a cohesive aesthetic flow in lounge areas—a totally unique market offering. The innovation doesn't stop with size and scale, either. Villa Youth tables feature soft, rounded edges and antimicrobial surfaces for enhanced safety and health. No matter your perspective—child, grown-up, teacher, caregiver, business owner—Villa Youth can be appreciated on many different levels.

## TABLES THAT PERFORM IN COMPLEMENTARY FASHION.

Were Villa merely a collection of chairs alone, your opportunities would be considerable. So, what is it that lends the line a true ability to go places no other lounge furniture can go? To do things most lounge offerings only dream of?

90° wedge and triangle tables flow nicely with Villa curved lounges

Villa round tables in 18", 30", and 42" sizes, may be ordered with Matte Glass tops

Magazine tables with open storage stow magazines neatly

Tables. Corner tables, magazine tables, and tables with open storage. Tables round, rectangular, triangular, and shaped like a wedge. Tables truly give Villa an infinite degree of designability, while answering all manner of functional purposes. Further, the full line of Villa tables gives you multiple options for power, data, and USB access. You have choices in wood or laminate finishes that coordinate across all Kimball Office product lines. And, tables can be used freestanding or ganged to Villa lounge units to keep your unique arrangements neatly in place.

IN CONCLUSION,  
YOU'LL NEVER RUN SHORT  
OF OPTIONS.

As Villa so rightly proves, a little geometry is a gorgeous thing. By delving into the unending arrangements and configurations made possible through its building block approach, you'll realize anew the refreshing (and even fun) power of good design. Today, more than ever, good design also means delivering flexible answers for multiple settings, markets, and generations—while helping you achieve sustainable goals as well. On all of these accounts and more, Villa is an extraordinary collection of furniture with applications beyond the everyday lounge.
