

## AMALFI

Indirect reflector luminaire with inverted tapered pole makes AMALFI's clean angular lines suitable for many architectural applications. Luminaire is precision- machined from billet aluminum, then satin anodized. Domed lens is temperature-resistant borosilicate glass. The conical shade is spun aluminum with anodized finish and supported by precision-formed aluminum struts. Inverted tapered steel pole with flush handhole is hot-dip galvanized prior to being finished in finely textured paint. Pole is secured to ground mounting assembly with stainless steel socket head cap screws. All hardware is stainless steel. Standard color; matte silver grey metallic. Special colors available.

Wet Location

Model	Pole	Lamp
AM270	7.5' IT	70 MH / 35 MH / 75 Halogen
AM360	10.4' IT	70 MH / 35 MH / 75 Halogen
