

Product Information

MIRAGE -Granito Ceramico® Ceramic Cladding Panels

8/1/05

Industry Leader: The largest range on the market of full-bodied colours and surfaces in special sizes for ventilated facades.

As Natural as Stone: The slabs of **Mirage Ceramic Granite®** are veined throughout the thickness, like slabs of natural granite and marble, to which they can be compared in appearance, colours and workability.

Sizes: 30x60 cm - 12"x24", 40x40 cm - 16"x16", 45x45 cm - 18"x18", 60x60 cm - 24"x24", 60x120 cm - 24"x48"

Thicknesses: from 8 to 30 mm.

Unrivalled experience: Mirage materials for ventilated facades, glued and for floating floors have been in use for 15 years.

Proven Reliability: The proven reliability of more than 3 million square meters of Granito Ceramico laid in facades, throughout the world, in a variety of project conditions.
