

NOVARA 2600

Cast aluminum and stainless steel create a synthesis of form and function in the NOVARA. The angular heavy cast aluminum housing is punctuated by distinctive cooling fins. Doorframe and mounting knobs are constructed of polished high-grade stainless steel. Single or twin configurations may be fitted with a clear, etched, or optional prismatic lens. Electrical conductor is housed in attractive braided stainless steel line. Straight round steel bollard shaft with flush handhole and mounting bracket are hot-dip galvanized prior to being finished in finely textured paint. All hardware is stainless steel. NOVARA 2600 VRB

Vandal resistant model same as NV 2600 bollard except with concealed wire way and rigid luminaire mounting. Standard color; matte silver grey metallic. Special colors available.

Wet Location

Model	Pole	Lamp
NV260-B	35.4"	26 CFL / 100 Halogen
NV260-VRB	32.8"	26 CFL / 100 Halogen
