SIERRA

SIERRA

Illuminating Bollard / Column

Pure in form yet bold in statement, Sierra provides a striking appearance, day or night. The translucent matte acrylic lens diffuses light uniformly along its length through direct and indirect reflec-

tor elements. Extruded aluminum body has bias cut to add visual interest. Illuminated column has top-mounted metal halide lamp for easy relamping and increased efficiency. Model SE42 lamp and

reflector are mounted at the base of the lens. Electrical assembly is housed in a weatherproof enclosure, accessible through the handhole. Standard colors; matte silver grey metallic or graphite

grey. Special colors available. Consult factory for optional colored LED illumination. See technical data sheet for details.

 Listed for Wet Locations

Model	Height	Lamp
SE42B	42"	35 MH
SE4000	13'	150 MH / 70 MH
