PONTE

PONTÉ

Illuminating Bollard

The PONTÉ bollard couples stunning design with a unique combination of functional lighting. It illuminates pathways and provides uplighting by merging two light sources into a gracefully sculpted cast aluminum housing. The prismatic acrylic side lens casts subtle lighting for walkways. The truncated, cylindrical upper housing features full 360° rotatability and

adjustable internal louvers to effectively accent trees, monuments, or facades. All hardware is stainless steel. Standard colors; matte silver grey metallic or graphite grey. Special colors available. See technical data sheet for details.
