

PONTE

The PONTE bollard couples stunning design with a unique combination of functional lighting. It illuminates pathways and provides uplighting by merging two light sources into a gracefully sculpted cast aluminum housing. The prismatic acrylic side lens casts subtle lighting for walkways. The truncated, cylindrical upper housing features full 360° rotatability and adjustable internal louvers to effectively accent trees, monuments, or facades. All hardware is stainless steel. Standard colors; matte silver grey metallic or graphite grey. Special colors available.

Wet Location

Model	Height	Lamp
PE1000	40"	35 MH / 24 T5Ho
