

# SIERRA

Pure in form yet bold in statement, Sierra provides a striking appearance, day or night. The translucent matte acrylic lens diffuses light uniformly along its length through direct and indirect reflector elements. Extruded aluminum body has bias cut to add visual interest. Illuminated column has top-mounted metal halide lamp for easy relamping and increased efficiency. Electrical assembly is housed in a weatherproof enclosure, accessible through the handhole. Standard colors; matte silver grey metallic or graphite grey. Special colors available. Consult factory for optional colored LED illumination.

Model	Height	Lamp
SE42B	42"	35 MH
SE4000	13'	150 MH / 70 MH
