LEDIA LF

LEDIA LF OD

LED Illuminating Tile
for Exterior In-Ground Use

The LEDIA LF series transforms night environments into colorful settings - walkways and public spaces develop atmosphere and interiors inherit structure. Luminaire is available in four sizes. Specially coated tempered glass tiles diffuse light uniformly across the surface. Functional anti-slip squares applied to the surface also create interest by adding a unique three-dimensional effect to the tiles. The lens is bonded to the stainless steel luminaire housing providing a sealed enclosure.

LEDIA mounts into a recessed stainless steel sub-frame, which serves as a cable vault for making power connections. Remote 120vAC/10vDC power supply unit is required. LED colors; red, blue, green, amber, white. See technical sheet for details. Underwater model is available. See LEDIA LF UW catalog page for details.

UL Listed 1838, Low Voltage Landscape Lighting Systems
