TORUS

TORUS G

Recessed Wall Luminaire

Simple in form, yet rich in detail, Torus casts glare-free diffused illumination for general accent lighting. Tempered glass lens features finely beveled edges with exposed matte sidewall, providing both lateral and forward illumination while highlighting wall surfaces. Reveal formed by the stainless steel lens frame becomes an illuminated design element. Lens with internal translucent white

coating is available in three variations; plain, striped, or textured. Spun aluminum housing mounts into spun aluminum back-box, suitable for through wiring. All hardware is stainless steel. See technical data sheet for details.

Listed for Wet Locations
Suitable for use in exterior, interior, and poured concrete walls

TORUS GA

Surface Mounted Wall Luminaire

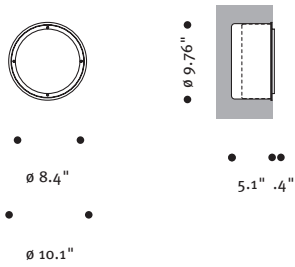

Same as TORUS G, except luminaire mounts into brushed stainless steel surface mount housing, suitable for through wiring. See technical data sheet for details.

Listed for Wet Locations
