

bernù® ice

Designer:
Davide Tonizzo

**Design
Registered**

- Cast aluminum and steel construction ensure durability and low maintenance.
- Innovative peg system affixes seats to beam without the clutter of exposed fasteners, allowing for quick installation and easy maintenance.
- 2-5 seat straight units, 4 and 5 seat curved units, tables and optional arms available.
- Unique curved beam units can be combined to create dynamic curvilinear seating layouts.
- Adjustable glides offer precision levelling and can be floor fastened upon request.

Finishes

- Cast aluminum components are satin with bright polished accents.
- Steel components are epoxy coated.

Seats and Backs

- Available in surface frost and clear Valencia organic
- Ergonomically contoured seat and back rest in 1/2" resin cast.
- Joel Berman custom textures and colours available upon request.
