

DESCRIPTION

More is better. More backrest, softer, more wood, smaller, rounder, more comfortable, more detail, more practical and more popular. Folk lives up to all our expectations. As its name suggests, it is a popular model in every way: competitive price, maximum comfort, tight measurements - with crafts and vintage accents.

Thanks to the softness of the pillows, the proportions of the back and its height, we managed to create a seat that hugs you and lets you lay the head, without needing any mechanism. In order to unite comfort with durability, the seat cushions combine various densities of foam with a layer of Fiberdream (feather touch microfibre). The back cushions are ultra-soft.

The collection consists of sofas and modules with and without wings. The wings give personality to this design and enhance its comfort. For backs and poufs, Rafa has created an optional quilted cover which can be incorporated to any of the pieces. The beech feet are available in natural, walnut, anthracite or wengue plus.

TECHNICAL DATA

Fabric: totally removable base and cushion covers.

Leather: fixed structure and removable cushion covers.

Wooden structure with HR Ultracel foam shell and fibre with felt.

Seat and back structure fitted with NEA webbing.

Back structure covered with HR and HRSS Ultracel foam.

Arms: wooden structure fitted with foam, HR Ultracel, and HRSS Ultracel.

Seat cushion: HR Ultracel foam covered with a cotton cover filled with FiberDream (feather touch microfibre).

Back cushion: cotton cover filled with FiberDream (feather touch microfibre).

Feet: natural beech, stained in natural, walnut, anthracite or wengue-plus.

Cover for headrest and pouf quilted with fibre and cannot be made in leather.
