

## DESCRIPTION

Nómada is a small armchair that has travelled around the world several times through the numerous projects in which it has participated. Compact and with reduced dimensions, its classic contemporary style makes it a basic concept suitable for any environment, in either version: upholstered or wooden arms.

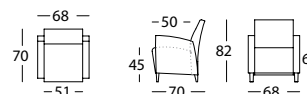

## TECHNICAL DATA

Solid wooden structure covered with foam.  
 Seat and back structure fitted with NEA webbing.  
 The inner seat is made with HRD high resilience foam.  
 The inner back is made with polyurethane foam.  
 It has wooden or upholstered arms and beech feet.  
 Nómada can be upholstered in fabric, leather or synthetic leather. It has a fixed structure, covers are not removable.
