

DESCRIPTION

Sapporo is a classic in the Sancal catalogue; a celebrated combination with a contemporary air. Its measurements are carefully studied in order to keep the formal harmony and to highlight our welfare. Optionally, it is possible to complement the back cushions with a headrest that increases the comfort of the piece.

TECHNICAL DATA

Solid wooden structure covered with foam and fibre shell.

The seat and back structures are fitted with NEA webbing.

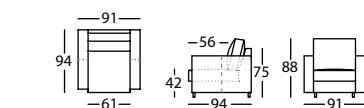

The inner seat cushions are made with high resilience HR Ultra-cel and are covered with thermofused polyester fibre. It also has TNT inner cushion.

The inner back cushions are made of silicon polyester fibre.

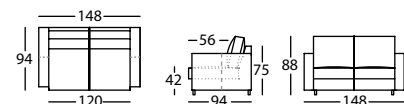

It has metallic feet in grey epoxy.

Suitable for upholstery in fabric, leather or synthetic leather; its cover are fully removable when upholstered in fabric and only the cushions when upholstered in leather or synthetic leather.
