

## DESCRIPTION

Soul armchairs are the result of a long tradition and expert knowhow; a discreet, comfortable and compact product - three essential qualities in an armchair. Soul is also a perfect complement to the Folk collection because of their small size, the wooden accents and vintage style. In any case, Soul works alone or in combination with the rest of the catalogue.

The Soul seat is extremely comfortable - thanks to the low seat height and a back with lumbar cushion integrated into the structure, which is well-suited to one's body. We can choose between different types of legs (central revolving pedestal or fixed feet) and base (upholstered or wooden).

The pouf offers 2 versions: pouf with wooden base (W3 stain samples) and pouf with upholstered base.

## TECHNICAL DATA
