

DESCRIPTION

Tea is the result of reclaiming an aesthetic pleasure perceived by sight and touch, an intense search to arouse emotions in the user. In order to do this, Sancal has relied on the estudihac of Jose Manuel Ferrero, who has designed a seating collection inspired by teatime – by the old, delicate china tea-set.

With exquisite timing and Anglo-Saxon discipline, estudihac combines textures and materials in the purest British style for this season. We offer a delicate prêt-à-porte covering of quilted matt velvet upholstery in sober colours and patterned squares – in Trevira - that is reminiscent of traditional tweed. It is an ad hoc selection made from Star upholsteries and Pro2 from the Danish brand Kvadrat, where beiges, greys, browns, maroons, greens and copper colours prevail.

The hexagonal-quilted and the bicolour options are key elements for this revised classic, contemporary and casual but always elegant and distinguished. It is undoubtedly one of the most special and innovative ranges on the market.

The collection consists of small armchairs, sofas and armchairs. New and exciting pieces will be added in the near future.

TECHNICAL DATA

Wooden structure covered with foam and fibre with felt. Armchairs and sofas: wooden structure fitted with NEA webbing.

Small armchair: seat structure fitted with NEA webbing. PVC feet.

Lumbar cushion: cotton cover filled with FiberDream (a down-touch microfibre).

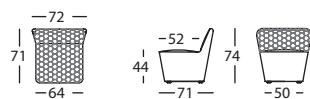

All foams used in the production of this model are fire retardant.

It has fully removable covers when it is upholstered in fabric or synthetic leather.

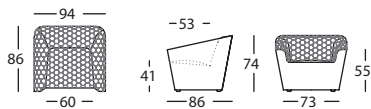

In its quilted version Tea can be upholstered in fabric and synthetic leather. In its plain version, without quilting, it can also be upholstered in leather.

The decorative cushion cannot be quilted.
