

VELA-DORA

Dual Design 2002

SANCAL

DESCRIPCION

This collection of tables stands out owing to its versatility; its great capacity for transformation. The range of sizes and finishes that Sancal offers makes Vela-Dora a table suitable for any occasion: in lounges, kitchens, waiting rooms, cafés, meeting rooms or offices. As a novelty we have developed a system of fittings and separate tops that enable enlargements by joining the tables together.

TECHNICAL DATA

The tops, round or square, can be MDF lacquered, stained mukali veneer or Polyrey.

The central foot can be satin stainless steel or F1 steel lacquered in black or white.
