NUCRAFT

You design. Let us handle the details.

Nucraft offers a free, online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else.

- No special software is required, nor is there any learning curve.
- The service applies to all Nucraft products including private office products, conference room products, reception stations, and training tables.
- You can generate quick and accurate answers for budget estimates and/or quick and exact specifications for final quotes.
- Revisions can be made any time you like, and total accuracy is guaranteed.

How it works.

Called iSpec, this service is as close as your phone and your Internet-connected computer. You can use it anytime you need to configure, specify, or price Nucraft furniture. Here is how it works :

1. Schedule an iSpec session by calling 1-877-NUCRAFT or by visiting www.nucraft.com/ispec. (You will be asked to provide some preliminary information on the project. We will respect the confidentiality of the information.)

2. At the scheduled time, a Nucraft project specialist will contact you at the telephone number you provide.

3. You will be directed to the online collaboration site. (All you need is an Internet connection and a Web browser.)

4. Once you are at the site, the Nucraft project specialist will work with you in real time to configure the required product based on your specific direction. (Watch the screen as your workstation appears.)

5. When the specification process is completed, you will receive 2-D or 3-D drawings, the specification itself with guaranteed accurate pricing, and the estimated lead time. (Follow-up sessions may be scheduled at your request to make any necessary modifications.)

iSPEC — IT'S FAST, IT'S FLEXIBLE, IT'S A FREE SERVICE FROM NUCRAFT.

Nucraft Representatives

Nucraft has independent sales representatives throughout the United States, Canada, Mexico, and the Middle East.
Please visit www.nucraft.com/find-a-rep to locate a sales representative in your territory.

General Information

This price book supercedes all previous versions.

How to Order

Before placing your order, confirm you have all required information necessary. Lead times for orders begin after all required information is included and correct.

Delivery Information

Our goal has always been to provide the very best service to our customers. We know lead times are important and sticking to them even more so. We work to maintain a 6-8 week lead time on all standard products in this book from receipt of a clean order. All orders are acknowledged with an approximate shipping date and will be invoiced with the price in effect at the date the purchase order is received.

Shipping charges are prepaid (within the continental U.S.). Therefore, pricing is a delivered price based on normal ground transportation. If you have special instructions, need to ship by air, or are shipping to Alaska or Hawaii, contact Nucraft Customer Service. Nucraft can also help arrange to have products blanket wrapped for an additional charge. Contact Nucraft Customer Service team or specify it on your purchase order.

Minimum Freight Charge: Any order below \$1,600 net will be assessed an \$180 net minimum freight charge (one per order).

Orders are subject to acquiring the materials required for manufacturing. Fulfillment can be affected by strikes, fires, embargoes and acts of government. These elements are beyond our control.

Freight Terms

Shipping charges for Nucraft products are prepaid in the continental United States. Product ships FOB dock. The customer obtains title to their product and materials, and assumes the risk of loss for them, upon shipment from Nucraft's facilities.

Storage

Nucraft has no storage facilities for finished product. If a customer cannot accept an order when it is ready for shipment, the customer must designate an alternative shipping address. If no address is provided, Nucraft may, in its discretion, transfer the product to storage. If product is transferred to an off-site storage facility, the customer may be charged for transportation to the facility and for any associated storage fees. Nucraft considers transfer of the product to a storage facility the equivalent of shipment, including invoicing and payment. Customers assume the risk of damage or loss during storage.

Transportation Times and Delays

Third party carriers that Nucraft contracts with will make reasonable efforts to accommodate requested delivery times and dates. Scheduled delivery appointments may, however, be delayed for a variety of reasons, including inclement weather, traffic, transportation equipment problems, and delays encountered at other delivery locations along the delivery route. Nucraft does not recommend scheduling activities that depend on the delivery appointment (for example, scheduling furniture installers to install furniture the day of the delivery appointment). Nucraft shall not be liable for any costs incurred as a result of a missed delivery appointment.

Shipment Damage Claims

Legal title to merchandise passes to the buyer upon acceptance by the carrier. **Inspect all cartons upon delivery.** Details of visible damage should be noted on the delivery receipt. Do not install product if damage is found upon inspection. The carrier should be notified by the buyer to inspect the merchandise, and file a claim immediately. If visible damage is not apparent, sign the delivery receipt "No visible damage." This will allow recourse for a concealed damage claim. Although most claims for transportation

damages must be filed against the carrier within nine months of the date of delivery, concealed damage claims must be filed within 15 days of receipt.

Do not destroy packing materials until shipment has been inspected. Then proceed to file a claim with the carrier.

Failure to make any claims against Nucraft within 10 days shall constitute acceptance of the merchandise and a waiver of any defects, errors or shortages discovered upon inspection.

Cancellations

Cancellations must be reviewed by our Customer Service team. Because we build your products to order, orders cannot be cancelled once processing has begun. If cancellation is approved, a processing fee of 20-100% will be assessed based upon the manufacturing status of the order. Orders for specially constructed or finished products cannot be cancelled once the product is started.

Repair Authorization

Prior written approval is required for repairs of merchandise charged to Nucraft. Failure to do so will result in customer funded repairs.

Payment Terms

Terms of payment consist of a 1% cash discount for payment within 10 days of invoice date or payment of the net amount due within 30 days of the invoice date (1% 10 days, net 30 days). Discount is not allowed on credit card payments.

Credit Card Payments

When paying by credit card (Visa, Mastercard or American Express), include the card number, expiration date, card holder name (printed) and card holder signature on the purchase order. A credit card payment form is available upon request. No cash discount allowed on credit card payments.

Warranty

Nucraft warrants that each piece of furniture it manufactures will be free from defects in materials and workmanship for a period of ten years of single-shift use. Textiles, decorative trim, electrical components, lamps, mechanical devices, casters and custom-made products not described in Nucraft's catalog are warranted for one year from the date of original delivery. This warranty is applicable only if the furniture is given normal and proper care and is properly installed and maintained in an office environment. This warranty extends only to products manufactured and sold in North America and only to original purchasers acquiring new Nucraft products through authorized dealers, or from others specifically authorized by Nucraft to sell its products.

Nucraft's sole obligation under this warranty is to repair or replace, at Nucraft's discretion, products which prove to be defective during the warranty period. Purchasers may be required to establish that a claim is within the warranty period. To initiate a warranty claim, the purchaser should contact an authorized Nucraft dealer.

This warranty does not cover: 1) Damage caused by a carrier 2) COM (Customer's Own Material) specified by the customer that is not a standard product offering 3) Color, grain or texture of wood and other covering materials (due to the natural variations over which Nucraft has no control) 4) Damages resulting from user modification, attachments to a product, misuse, abuse, alteration or negligent use.

Nucraft extends no other warranties, expressed or implied, including warranty of merchantability or fitness for a particular purpose. Nucraft shall not be liable for loss of time, inconvenience, commercial loss, incidental or consequential damages.

Finish Information

Custom Finishes

Nucraft specializes in expert custom finish matching. For a nominal upcharge we can provide custom finishes, and we are frequently asked to match the finishes of other furniture manufacturers. For orders over \$5000 list, a finish sample will automatically be sent for approval prior to entering the order. Additionally, for finishes that appear unusual to match or for customers directly requesting a sample, a finish sample will also be sent for approval prior to entering the order.

Custom finishes requiring colored varnishes to create a painted look can only be applied to Maple veneer and require one extra week in addition to the standard leadtime. Nucraft's standard black finish (G82) can be applied to all Nucraft standard veneers. Walnut is the standard black veneer. Other species must be specified when ordering.

Custom finishes carry a 10% upcharge per item, per finish.

Do not add the finish upcharge to any item that is not wood. Example: casters, ganging connectors.

Treatments

Note: Incoming orders without a treatment specified will default to our standard Gloss treatment.

Gloss: Our standard treatment. Gloss is a durable finish that tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a medium gloss open pore appearance (40 – 50 sheen range). Finish numbers preceded by the letter "G" indicate a Gloss finish.

Matte: Like Gloss, Matte is durable, tends to nicely mask normal wear and leaves wood grain visible to the eye. It achieves a low luster, open pore appearance (10 – 20 sheen range). Finish numbers preceded by the letter "M" indicate a Matte finish.

High Gloss: A full filled hand rubbed treatment, High Gloss has a mirror-like appearance (80 – 90 sheen range). High Gloss treatments tend to show wear as well as grain and surface irregularities to a greater degree. Finish numbers preceded by the letter "H" indicate a High Gloss finish. **There is a 10% upcharge per item for a High Gloss finish.**

When viewing a High Gloss finish from certain angles, you may notice subtle rubbing lines, which is characteristic of any rubbed finish treatment. High Gloss treatments are applied to top surfaces only of products up to 50" in height. A Gloss treatment is then applied to all other exposed surface areas.

Since each veneer type responds differently to both types of treatment, all will have a distinctive look and feel when finished. For example, a Walnut veneer with a Gloss treatment will remain much more textured than a Cherry veneer with the same treatment.

About the Wood

All Nucraft veneers are carefully selected for uniformity of color and grain. Still, wood is a natural substance and minor variations may occur due to its own uniqueness. Because of this, the furniture you receive may not be an exact match to our samples.

Nucraft takes great pride in our finish color consistency. However, wood is a natural product that will have color variation within a single piece of furniture, as well as from one piece to the next. Other factors also affect color over time, such as exposure to light (both intensity and duration). For example, lighter finishes cause more variation in colors over time.

In cases where a returning customer wants a precise match with existing furniture, we recommend sending a sample of the existing furniture finish. Please contact Nucraft Customer Service to determine an appropriate sample. This will ensure a finish match between old and new orders. This type of order is considered a control sample. There will be a 10% upcharge on an order of this type. Due to natural aging of veneers, natural finishes may vary.

Care and Maintenance of Wood Finishes

Our finish material is a crystal clear, urethane acrylic blend. This type of finish may be repaired in the field by a qualified refinisher. Contact our Nucraft Customer Service team for detailed touch-up and refinishing instructions.

Nucraft recommends using a damp cloth to clean your fine wood furniture. Always wipe with the grain of the wood. Should your wood furniture require a more thorough cleaning, we recommend using a mild cleaner such as Joy dish soap or Murphy's oil soap, thoroughly diluted in water (one part soap to thirty parts water). Water will not damage Nucraft's finish, but will leave surface spots when it dries. To avoid this, dry the surface with a soft cloth after it is cleaned. Marks that cannot be removed with the cleaning methods above may be able to be removed using naphtha, a mild degreasing solvent.

Caution: while the use of polishes that contain wax, petroleum solvents or silicones may immediately enhance the "shine" of a product, it may also eventually remove the fine original finish applied in our factory. Silicone on the surface of wood may also make it very difficult to respray or refinish.

All Nucraft furniture is inspected and polished before it leaves our factory. In some instances, the packing materials may imprint on the factory polish. Cleaning and polishing the furniture once it is unpacked will normally restore the furniture to its original beauty.

In some cases, the rubber support feet used on the bottom of common office equipment (teleconferencing phones, laptops, microphones, copiers, etc.) can create unsightly marks in the surface of wood tops, due to oxidation of the lacquer finish. We suggest these machines be placed on a protective type of padding, such as felt.

Finish Information

Laminates

Selected WilsonArt laminates are available on Satellite Tables, A/V and Presentation Cart top insets as well as Conference Tables, Conference Room Furniture, Visual Boards and select Occasional Tables. For standard laminate and wood pricing, refer to individual item pricing columns.

Non-Standard Laminates

To order a color other than those on our list (see Page 8), refer to Nevamar, WilsonArt, or Formica standard grade, matte texture or Pionite standard grade, suede texture laminate offerings (excluding manufacturers' non-standard matte offering). **Add \$90 list per item for a non-standard solid, matrix or pattern.** Add 20% per color for woodgrain laminates (includes stained-to-match for remainder of unit to match laminate color). Add one week to the lead-time for all non-standard laminate orders. Call the Nucraft Customer Service team for quotes on premium grades and laminates. Mirror and metal laminates are not available.

Care and Maintenance of Laminate

Laminate surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Metal

Metal surfaces can be wiped with a damp cloth and rubbed dry. A mild non-abrasive household liquid detergent can be used if necessary. Regular maintenance of metal components, including tightening of fasteners and light lubrication of moving parts, will extend the life of your furniture.

Care and Maintenance of Glass

Clear or frosted glass may be cleaned with commercial glass cleaner. Be sure to use a lint-free cloth if cleaning the frosted side of the glass.

Care and Maintenance of Stone

Marble: Marble is porous and stains easily. Wipe off anything spilled on marble immediately. Occasionally wash marble surfaces with lukewarm water and wipe dry with a clean cloth. To avoid leaving streaks, wipe surface with a damp chamomis. Should your marble surfaces require a more thorough cleaning, wash with a mild household liquid detergent solution, rinse and wipe dry. A light coat of wax will protect the surface of marble but is not considered essential. If wax is applied, it should be a colorless wax.

Granite: Granite surfaces may be cleaned with a damp cloth and ordinary soap or non-abrasive household liquid detergent. Dry the surface with a clean cloth or soft paper towel to prevent streaks from appearing.

Care and Maintenance of Leather

Genuine leather requires very little care. Nucraft recommends that leather be dusted regularly. If a more thorough cleaning is needed, use lukewarm water and a mild, non-abrasive soap. Generate some lather and lightly rub the surface with cheesecloth. Rinse off any soap film with clean water and towel dry. The leather may dry dull. To restore the leather to a normal gloss, rub it with a clean towel. Never use furniture polish, oil, varnish or ammonia. Saddle soap may be used to prevent the leather from becoming brittle or cracked and to maintain the original supple finish.

Touch Up Finish Kits

Model #	Description	Price
KIT-M	Metal Kit	80
KIT-P	Paint Kit	80
KIT-S	Stain Kit	80

REQUIRED INFORMATION: (ORDER CANNOT BE ENTERED WITHOUT THIS INFORMATION)

- Kit model number
- Quantity of kits
- Specify finish (See Page 8)

General Information:

- Touch-up kits must be ordered on a purchase order separate from Nucraft product due to Hazmat shipping

GRADED FABRIC PROGRAM

Top quality upholstery and fabrics have been graded into the price list. We work with various distributors and now offer a larger selection of fabrics. For a current list of graded-in manufacturers, check our website at www.nucraft.com

NET PRICE PER YARD N U C R A F T G R A D E

\$19.99 and below	A
\$20.00 - 29.99	B
\$30.00 - 39.99	C
\$40.00 - 49.99	D
\$50.00 - 59.99	E
\$60.00 - 69.99	F
\$70.00 - 79.99	G
\$80.00 and above: contact Nucraft Customer Service	

For additional information on our graded-in fabrics program, please go to www.nucraft.com.

COM Specification for Visual Boards & Easels

For COM orders please include the following:

- Name of customer
- Customer's purchase order number
- Model number and quantity of piece(s) to be covered
- Specify right-way or railroad application (railroad is the default if no selection is made)
- If fabric is a stripe or pattern, specify vertical or horizontal application
- Supplier's name, material number and description

YARDAGE ESTIMATING

All yardages in the price list are based on 54" wide plain (no match) fabric. The following is a guide for fabrics that are less than 54" wide or have a pattern match.

Fabric Less Than 54" Wide

For 50" wide fabrics allow 10% additional fabric
 For 48" wide fabrics allow 15% additional fabric
 For 45" wide fabrics allow 20% additional fabric
 For 36" wide fabrics allow 50% additional fabric

For Pattern Match Fabrics

3" to 14" repeat allow 15% additional fabric
 15" to 19" repeat allow 20% additional fabric
 20" to 27" repeat allow 25% additional fabric
 28" to 36" repeat allow 30% additional fabric

Nucraft may add a charge for sewing, cutting and matching unusual COM or COL materials to cover additional costs. Call customer service for pricing.

It is the sole responsibility of the customer to determine that the fabric is appropriate for the application in which it will be used.

Once COM/COL is accepted, Nucraft assumes no responsibility for its overall appearance, flammability, normal durability, color fastness or any other quality after upholstered on a Nucraft product beyond our normal quality standards.

The fabric should be sent to the following address:

Nucraft Furniture Company
 5151 West River Drive
 Comstock Park, MI 49321
 Attn: Order Processing

FIRE RESISTANCE

All Nucraft benches incorporating upholstery fabrics meet California Technical Bulletin 116/117 and BIFMA X5.7 - Voluntary Upholstered Furniture Flammability Standard for Non-Residential, Non-Live-In Occupancies.

COM LEATHER SPECIFICS

The following is a guide for specifying leather requirements. The guide is based on the following general information.

A full "domestic" hide is approximately 50-60 square feet. A specialty or calf hide is approximately 35 square feet. Of this footage there are various non-usable areas included in the hide's size. Conversion of fabric yardage to leather is approximately 1 yard = 18 square feet.

Bench Requirements

48" benches will require 1/2 domestic hide or 1 full calf hide.

60" benches will require 1 domestic hide or 2 calf hides.

72" benches will require approximately 1 full domestic hide or 3 calf hides.

The boxing around the seat, if required, will have 4-6 seams that will be placed aesthetically based on the yield and usable remains of the hides.

Specification Tools

Computer Aided Planning

Nucraft products and pricing are available on CD via CAP (Computer Aided Planning), a product of 20 20 Technologies.

Cap Studio is an integrated software system developed specifically for interior designers and facility planners to enhance workplace performance. This modern suite of applications works together seamlessly, in concert. Navigate catalogs, select products, design in plan view and 3D, assign options, create worksheets and build a project where you want, when you want. Take your pick. It's dynamic and interactive. Design projects are a work in progress. And now you can perform any of the many discrete tasks that go into a project any time, any place.

For additional information you may contact 20 20 direct at 800-227-0038.

iSpec®

Nucraft offers a free online product configuration and specification service that saves you time and allows you to be creative while leaving the nuts and bolts to someone else. No specific software is required, nor is there any learning curve. This service applies to all Nucraft products. For additional information, call 1-877-NUCRAFT and ask for the iSpec Team or log on to www.nucraft.com/ispec.

Environmental Statement

Environmental Options

Nucraft is committed to supporting responsible environmental policies and practices in all that we do. We strive for sustainability, weighing our business decisions against the costs to the ecological, social and economic systems they affect.

Our products are manufactured to meet one or more of the following credit requirements of the U.S. Green Building Council's LEED rating systems:

Recycled Content

LEED Credit MR 4.1

Requirement: The sum of post-consumer recycled content plus 1/2 (one-half) of the pre-consumer content shall constitute at least 10% of the product (by weight).

LEED Credit MR 4.2

Requirement: The sum of post-consumer recycled content plus 1/2 (one-half) of the pre-consumer content shall constitute at least 20% of the product (by weight).

All standard Nucraft products consist of a high percentage of recycled content that far exceed the LEED requirements and vary by product line. For exact percentages, download the Environmental Statements for each respective product line at www.nucraft.com.

Rapidly Renewable Materials

LEED Credit MR 6

Requirement: Products shall consist of at least 5% (by weight) of materials made from plants that are typically harvested within a 10-year or shorter cycle.

Nucraft offers all wood products with an optional Rapidly Renewable construction to meet the LEED requirement for Rapidly Renewable content.

Contact Nucraft Customer Service for details on how to order products with this construction. For exact percentages of Rapidly Renewable content by product line, download the Environmental Statements for each respective product line at www.nucraft.com.

Certified Wood

LEED Credit MR 7

Requirement: Products shall consist of at least 50% (by weight) of materials that are certified in accordance with the Forest Stewardship Council's Principles and Criteria.

Nucraft is a Forest Stewardship Council (FSC)-certified manufacturing facility and offers all wood products with an optional FSC-certified construction to meet the LEED requirement for Certified Wood. Contact Nucraft Customer Service for details on how to order products with this construction. For exact percentages of Certified Wood by product line, download the Environmental Statements for each respective product line at www.nucraft.com.

Low-Emitting Materials - Systems Furniture and Seating

LEED Credit EQ 4.5

Requirement: All systems furniture and seating that was manufactured, refurbished or refinished within one year prior to occupancy must meet the ANSI/BIFMA M7.1-2007 and ANSI/BIFMA X7.1-2007.

All Nucraft conference tables, training tables, and Aerial casegoods satisfy LEED Credit EQ 4.5 as they have been certified to the stringent ANSI/BIFMA X7.1-2007 Furniture Emissions Standard.

Certified Products 100% - Type I Environmental Label

Pilot Credit MR 43

Requirement: BIFMA level™ certified products qualify for Pilot Credit 43.
