

Webster Chair environmental product summary

As the economic, environmental, and social conditions in our communities and around the world are changing – and ever more challenging – izzy+ is evolving to reflect those changes. Part of that evolution is a deeper understanding of what it means to be “sustainable” and a commitment to integrating the social, environmental and economic aspects of sustainability into our policies, our practices, our designs, and our culture. To ensure success and transparency, izzy+ will enlist the collaboration of its stakeholders in tracking our commitment, contributing to strategy and implementation, and communicating to each other and the larger community.

* LEED Disclaimer

Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Fixtures Furniture made conservative assumptions when compiling this information to provide the most accurate content calculations possible. Variability in market conditions and manufacturing processes as well as product revisions may result in higher or lower content. This document will be reviewed and updated periodically and is subject to change without notice.

Please visit izzyplus.com/environment or contact your izzy+ representative for further details related to izzy+ product, facility, & corporate sustainability policy or for copies of certificates and other useful tools.
