

HÅG Capisco Puls Chair environmental product summary

As the economic, environmental, and social conditions in our communities and around the world are changing – and ever more challenging – izzy+ is evolving to reflect those changes. Part of that evolution is a deeper understanding of what it means to be “sustainable” and a commitment to integrating the social, environmental and economic aspects of sustainability into our policies, our practices, our designs, and our culture. To ensure success and transparency, izzy+ will enlist the collaboration of its stakeholders in tracking our commitment, contributing to strategy and implementation, and communicating to each other and the larger community.

Brand
HÅG

Product Category
Seating

Sub Category
Task &
Stool

Designer
Peter Opsvik

Manufacturing Site
Middlebury, IN
46540

Characteristics

Environmental Indicators

	Cradle to Gate	Units
Global Warming	31	kg CO ₂ eq
Energy Consumption	607	MJ

According to Norwegian Environmental Product Declaration ISO14025 (NEPD# 212 valid 6-17-2011 to 6-17-2016)**

Recycling

Post Industrial Recycled Content	0%
Post Consumer Recycled Content	24%
Aggregate total (PCRC + 1/2 PIRC)	24%
Recyclable	95%

* LEED Disclaimer

Calculations of recycled content are based on data provided by suppliers and other available information. This data may include industry averages, ranges or other broadly based information. Fixtures Furniture made conservative assumptions when compiling this information to provide the most accurate content calculations possible. Variability in market conditions and manufacturing processes as well as product revisions may result in higher or lower content. This document will be reviewed and updated periodically and is subject to change without notice.
