OT61PI

Elegante ed essenziale nelle sue linee, la sedia Ottochairs presenta due versioni, imbottita con rivestimento tessile oppure realizzata in materiale plastico, entrambe su una base piatta in acciaio. Con o senza braccioli, adatta alla zona pranzo, ma non solo, assicura un alto livello di comfort. Nella versione tessile la graficità delle sue linee viene sottolineata da un inserto nero che attraversa lo schienale.

La variante plastica, dietro una semplicità solo apparente, nasconde un'ampia ricerca tecnologica legata allo stampaggio delle materie plastiche bicomponenti. Due i materiali utilizzati, caratterizzati da diverse flessibilità, uno opaco disponibile in diversi colori, l'altro semitrasparente più morbido, che assicurano una seduta decisamente comoda.

With its elegant and essential lines, the Ottochairs comes in two different models: padded with fabric upholstery or in plastic material, both on a flat steel base. Designed for maximum comfort, with or without armrests, it is perfect for the dining area-among other places. In the fabric model, the shape of the chair is accented by a black insert across the back. The plastic model, apparently very simplistic, is actually the

result of extensive technological research into moulding bi-component plastic materials. Two materials with different degrees of flexibility were employed: an opaque material available in several different colours and a softer semi-transparent material, to ensure comfortable seating.

Scocca

OT61P - OT61PB

materiale termoplastico
bianco, antracite, grigio,
giallo senape

Sedia imbottita

OT61PI - OT61PBI

scocca in materiale termoplastico,
schiuma di poliuretano flessibile
a freddo Bayfit® (Bayer®),
fodera in fibra di poliestere

Rivestimento sedia imbottita

OT61PI - OT61PBI

tessuto, pelle

Struttura di sostegno

Puntali

trafilati d'acciaio cromato lucido
materiale termoplastico bianco

Body

OT61P - OT61PB

thermoplastic material
white, anthracite, grey,
mustard yellow

Small padded chair

OT61PI - OT61PBI

thermoplastic body,
Bayfit® (Bayer®) flexible cold
shaped polyurethane foam,
polyester fibre wadding

Small padded chair cover

OT61PI - OT61PBI

fabric, leather

Support structure

Glides

drawn steel bright chromed
white thermoplastic material
