

# ALUMINIUM CABINETS

(Designer B.Fattorini)

Storage units with doors, drawers and filing drawers, or storage columns, designed to solve domestic, office or community storage problems.

The containers, doors and drawer fronts are made of medium-density, wood fibreboards, covered both sides with an anodized aluminium sheet. All surfaces of the containers are clad with aluminium.

The drawer sides are made of aluminium-lacquered steel, while the bottom is made of chipboard melamine-coated wood in grey colour.

The drawers, provided with fully extractable Blum guides, may have, upon request, a lock on each drawer.

## DRAWER OR DOOR UNITS

Frame: 1.1 cm thick (1.6 for length 120 cm).

These are available in four heights (37.5 - 48.5 - 60 - 63.5 cm) and three lengths (45 - 80 - 120 cm), always 51 cm deep. They can be mounted on a 10 cm high aluminium stand or on castors 5.5 cm in diameter (two with brakes), raising the unit 7 cm from the ground. Door units are equipped with an internal shelf (height 37.5 excluded). 45 cm large units have one door, 80 and 120 cm large units have two. The door hinge rotation is 110°.

In case of one-door units it is always necessary to specify the position of hinges (left or right facing the unit).

Handles in anodized aluminium.

## COLUMN UNIT WITH DOORS

Frame: 1.6 cm thick.

These are all 180 cm high. They can be mounted (on the edge of the structure) on an aluminium stand 10 cm high, on a 3.5 cm high plinth or on castors 5.5 cm in diameter (two with brakes), and in height 7 cm.

Customers may choose from:

- length 50.1 or 85.4 cm. depth 53, also available in open versions
- length 60 cm, depth 61.5, equipped with drawers and hanger bar, or with shelves (3 shelves as a standard option).

Extra shelves can be fitted in the columns: these do not rest any more but are positioned with joint shelf-support systems.

With one-door column units, it is always necessary to specify the position of hinges (left or right facing the unit).

Handles in anodized aluminium.

All column units with door are available in the version with a handle at full height in polished aluminium.

## Accessories

- **Internal drawers** for storage columns in 50 and 85 cm length.
- **Standard files holders** for large drawer suitable for both European and US files
- **Locks with a universal key** with the same key you can open any drawer with lock (of different drawer cabinets as well)
- **Locks with a cipher key** this is for opening exclusively the drawers in the same drawer cabinet
