

# CABINETS 09 (Designer B.Fattorini)

A system of cabinets with drawers and file-holders to be used at home, in the office or in community areas.

The storage units, the drawer fronts and the coplanar doors are made of MD wood fibreboards, covered both sides with a methacrylate sheet in gloss white, black and red, or matt white.

The sides of the drawers are made of aluminium-lacquered steel, the bottom and the back of chipboard melamine-coated grey panels.

Drawers are equipped with fully-extractable Blum guides as a standard option and may have, upon request, a lock on each single drawer.

The cabinets are mounted on an aluminium stand, or on castors (two of which with brakes).

## Dims

Structure in thickness 13mm.

In three heights ((37.5 - 48.5 - 60cm), in length 45 cm, always in depth 51cm.

Aluminium stand in height 10 cm, or castors in diameter 5.5 cm and in height 7 cm.

## Accessories

- **Standard files holders** as a standard option with large drawers, suitable for both European and US files
- **Locks with a universal key** with the same key you can open any drawer with lock (in different drawer units as well)
- **Locks with a cipher key** this is for opening exclusively the drawers in the same drawer unit.
