

ACHILLE CHAIR

(Designer J. M. Massaud)

A stackable and padded chair, completely upholstered in fabric, of great impact and comfort.

Frame in metal tubing, foamed with polyurethane rubbers, upholstered with fabric.

Cover

The upholstery, which is fully removable and covers the whole chair, can be made with the following fabrics: Manila, Liverpool, Cambridge or in MDF leather.

The upholstery in high-quality MDF Italia leather, of strong image and impact, comes in a wide choice of colours.

The fabric Manila, with TEFLON anti-stain treatment, features a broad range of stunning colours: pearl grey, dust blue, dove-grey, dark brown, anthracite grey, blue, black, yellow, orange, red, mustard, turquoise, purple.

The fabrics Cambridge and Liverpool, available in various colour options, meet the fire-retardant provisions (class 1IM)* and are particularly suitable for an intensive use and when a particular strong resistance to stains is required. The fabric Liverpool is also certified BS 5852 Crib 5.

The technical fabric Liverpool, with a polyurethane coating, has an especially refined finish and a soft texture.

The eco-leather Cambridge, a coated fabric, has a leather imitation finish.

For the choice of upholstery, please see the table on page 5.24 and the section "fabric collection" on the website.
