

FLOW CHAIR

(Designer J. M. Massaud)

Upon request outdoor versions with sled base or 4-legged base in white, black, grey

A family of seatings of great impact and comfort. Designed for the home, the office and the community areas. Available in three versions with a wide range of bases and finishes.

VERSION WITH A WHITE BLACK, GREY OR SMOKED GREY SHELL

The shell, made from polycarbonate through injection moulding, is mass-pigmented in the colour options white, black, grey, transparent smoked grey and has a standard double finish: gloss outside, and goffered inside. The chair with a smoked grey shell is always provided with a fixed leather pad, in black or white depending on the frame finish. With a chrome-plated or brushed frame, the pad is always in black leather.

Accessories

Seat pad made of 6 mm thick felt in black or red, or leather in black or white.

PADDED VERSION

The chair with a white black or grey shell can be completed with upholstery: a thermoformed padded countershell with a small pad made from quilted polyurethane and polyester wadding.

The padded version can be upholstered in fabric or leather.

Removable upholstery; extra cover available if requested.

TEXTILE VERSION

The shell, made from polycarbonate, is completely upholstered in fabric or leather. Removable upholstery; extra cover available if requested.

The chair is always provided upholstered.

For the choice of upholstery, please see the table on page 5.24 and the section "fabric collection" on the website.

With customer's own leather, in order that the product is properly manufactured, the leather piece must be with no defects, such as scars or holes.

Bases

In the following finishes:

- gloss-lacquered in white, black or grey with a white, black or grey shell. The base is supplied in the same colour of the shell
- gloss-lacquered in white or black with smoked grey shell.
- matt-lacquered in white or black with textile versions
- chrome-plated/brushed with all shell options (please always specify the colour of the selected shell)
- oak solid wood with all shell options

The bases are available in the following options:

- 4-legged base in steel tube, lacquered or chrome-plated.
- VN 4-legged base in lacquered steel tube with connecting elements in steel wire.
- sled base in steel wire, lacquered or chrome-plated.
- sled base with arm in steel wire, lacquered or chrome-plated. The frame acts as an armrest surrounding the whole shell.
- 360° swivel 5-legged base in lacquered steel tube; on castors in the same colour of the base.
- VN 5-legged base in lacquered steel tube with connecting elements in steel wire. Castors in the same colour of the base. 360° swivel.
- VNR height-adjustable 5-legged base in lacquered steel tube. With connecting elements in steel wire. Castors in the same colour of the base. 360° swivel
- 360° swivel 5-point-star base in aluminium, lacquered or gloss-brushed; on castors in the same colour of the base.
- 360° swivel base with central leg in lacquered aluminium.

- 360° swivel 4-legged oak base, frame from transparent-lacquered natural oak solid wood, with a lacquered steel coupling device.

Outdoor use

Upon request, availability of outdoor versions with a 4-legged or a sled base in white, black or grey, and shell in the same colours, always with a double finish: gloss outside and goffered inside.

The chairs with a smoked grey or textile shell are not usable outdoor.

Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity). Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.
