

SIGN

(Designer P. Cazzaniga)

A highly-comfortable seating of great impact for indoor and outdoor use.

A self-supporting **structure** made from polyamide (nylon 6), rotationally molded, gloss lacquered in white, red, yellow and black. Acrylic paint of high-quality in terms of gloss, resistance and hardness (automobile sector). Any scratch caused by everyday use can be removed and the original gloss maintained using the polishing kit provided (cloth and polish).

They always come with a drill (dia. 9 mm) for water drainage.

Supplied with a kit of 4 kinds of small feet, easily interchangeable, which are fit for any kind of floor: ceramic, wood, carpet, linoleum etc., for both outdoor and indoor use.

Outdoor use

Any material left outside, even if properly treated, can have superficial molecular and colour changes during its lifetime. Of course, the amount of alterations is directly related to the amount of exposure to weather and to the geographical area (for ex., high humidity and/or salinity).

Regular maintenance, for instance periodic cleaning with water, increase resistance to corrosion.
