

NEW

Armrest with a top stitched seam

Better comfort, top stitched seam

A system of sofas and sectionals.

Frame

Sofas and sectionals with a frame in solid wood and elastic belts.

Concealed **feet**.

Filling in non-deformable variable density polyether and down or in polyester wadding. The polyester wadding version is more rigid and costs less whilst maintaining the same level of comfort and quality.

Pull-out elements: with the 95 cm large intermediate element and the 119 cm large end element with armrest, a sliding system allows to increase the seat depth by 18 cm for a better comfort.

To pull out the seat, slide it out smoothly.

NB: No element can be used as a single element.

Cover

The upholstery covers every part of the sofa and is completely removable.

The new top stitched seam highlights the arms in the end /corner and special units.

The underlining in cotton makes removing the cover easier and the product maintains its good looks even when uncovered.

Optional extra covers if required.

All units in leather may have, at MDF Italia's discretion, one or more seams.

For the choice of upholstery, please see the table on page 1.61 and the section "fabric collection" on the website.

With customer's own leather, in order that the product is properly manufactured, the leather piece must be larger than 5 sqm and with no defects, such as scars or holes.

Accessories

With sectionals, a coupling device is provided. This request must be highlighted by a drawing.
