

COLORS - COLORS EXTRA (Designer B.Fattorini)

A family of tables and consoles characterized by chromatic continuity.

Frame

Frame and legs, section 45x45 mm, in aluminium

- 100% gloss lacquered, finished in orange, black, red, light grey, yellow, green, white
- matt white lacquered with LG HI-MACS tops

Invisible joints.

The frame of 200 cm large square tables comes with a central support bar in steel lacquered in the same colour of the frame.

Tops

The built-in tops are made of:

- **Tempered glass**
approx. 9 mm thick, lacquered in orange, black, light grey, red, yellow, green, white.
- **LG HI-MACS**
mass-pigmented in Alpine White, thickness 9 mm.
For technical specifications please see page 4.50

Dims

Rectangular tables in 12 size options and square tables in 10 size options. Two size options for consoles. Height: 72 or 75 cm.

The maximum sizes in the price list are determined by production limitations.

The LG HI-MACS-topped table is not available in the size 200x200cm.

Measurement tolerances: the top is 1 mm smaller at each side than the structure. Tolerances are +/-0,5 mm.

Due to the tolerances of the various materials, the top may lie slightly above or below the edge of the frame.

Special sizes

Custom-made tables require extra work, consequently additional costs and longer lead time if compared with standard pieces. For lead time, please contact our Sales Department

- **In case of top size variation**, the price will be calculated on the basis of the next table measurement up from the size ordered plus 30%.
- **In case of height variation**, the extra charge stands at 15% (max. H 80 cm).

COLORS EXTRA

A LARGE-SIZED VERSION

thanks to the adjustable tensioning device (fig.A), a patent from MDF Italia (patent pending).

No special sizes available for top and frame.

NB: all tables are delivered pre-assembled: two bridges (legs and bar in width) and frame (bars and tensioning devices).

COLORS EXTENSION T (Designer B.Fattorini)

Extension T System

The system finalized by the MDF Italia Project Team allows to extend the tables up to 110 cm (with 4 extra seats) by means of extractable chromium-plated steel bars sliding on bushes.

The additional tabletops, in length 55 cm, fitted into guides under the table frame, are made of MD wood chipboard veneered in anodized aluminium only. Provided with a magnetic levelling and safety locking device, a patent from MDF Italia, they are easy to apply to the pulled-out frame (Patent pending).

Frame and dims

Frame and legs, section 45x45 mm, in aluminium

- 100% gloss lacquered, finished in orange, black, red, light grey, yellow, green, white
- matt white lacquered with LG HI-MACS tops.

Invisible joints.
Height 72 or 75 cm.

No special sizes available.

The maximum sizes in the price list are determined by production limitations. With tables in length over 180 cm, the adjustable tensioning device (fig.A), a patent from MDF Italia, ensures a proper flatness of the worktop and a high capacity load of the frame (patent pending).

NB: all tables are delivered pre-assembled: two bridges (legs and bar in width) and frame (bars with installed tensioning and extension devices).

Tops

The tops, built-in into the frame, are made of :

- **Tempered glass**
approx. 9 mm thick, lacquered in orange, black, light grey, red, yellow, green, white.
- **LG HI-MACS**
mass-pigmented in Alpine White, thickness 9 mm.
For technical specifications please see page 4.50

Additional tabletops (length 55 cm)

Made of MD wood chipboard veneered in anodized aluminium only.

MATERIALS

CRISTALPLANT® for Flow Low Table • S Table with white stand

TECHNICAL SPECIFICATIONS

CRISTALPLANT® is a unique highly-advanced composite material made up of a high percentage of natural minerals (ATH derived from bauxite) and a small percentage of extremely pure polyester and acrylic polymers; thus it is an inert hypoallergenic and non-toxic material.

CRISTALPLANT® is a 100% made-in-Italy solid surface.

CRISTALPLANT® is 100% recyclable, fireproof (class 1), with a high UV resistance; it is compact and non-porous, hygienic and with a soft texture thanks to its velvet finish similar to natural stone.

CRISTALPLANT® is 100% restorable, ie it can be brought back to its original condition simply with a detergent and an abrasive sponge (also cigarette burns can be removed). Its characteristics of durability and restorability make it eco-compatible.

CERAMILUX® for Flow Low Table • S Table with black stand

TECHNICAL SPECIFICATIONS

CERAMILUX® is a material composed of natural minerals (calcium carbonates and aluminium trihydrates) and polyester resin. The gelcoat film coating the surface of the material is made of a highly-resistant acrylate polyester.

CERAMILUX® shows a good resistance to shocks and stress, to bending stress, tractions and compression: this allows it to obtain certain thicknesses without the support of other materials, thus creating self-supporting products.

CERAMILUX® is a high-quality material with an excellent resistance to shocks,

sudden changes of temperature and to wear, typical of the home environment. Good resistance to chemical agents and sun rays. In the event of serious damages, such as persistent stains or deep scratches, its former finish is restored simply by using fine abrasive paper and polish.

KERAMIK for tables and coffee tables: Keramik • Lim 04 • Desk • Edgar II • Ra 07 • T Table

TECHNICAL SPECIFICATIONS

Laminated ceramic features uniquely peculiar technical characteristics thanks to the innovative methods of ceramic treatment and production (laminated-porcelainized thin gres).

- Extreme surface hardness (comparable to topaz) and high bending strength.
- Resistant to stains, water, detergents and acids.
- Not inflammable, reaction to fire: class 0.
- Inalterability of the chromatic characteristics.
- It doesn't release toxic substances and there is no warping if heated with open flame

CATAS TESTS PERFORMED ON CERAMIC

- fastness to light UNI 9427/89
- resistance to cold liquids EN 12720/97
- tendency to hold dirt UNI 9300/88 and FA276/89
- scratch resistance UNI9428/89
- reaction of surfaces to detergents PTP53/95

Other tests related to technical characteristics:

- fire resistance, wearproof, hardness resistance, abrasion resistance and water absorption resistance

MATERIALS

LG HI-MACS for tables and coffee tables: Desk • Lim 04/Lim 04 Extra • Lim 04 Extension T • Colors/Colors Extra • Colors Extension T • T Table • Ext-Table

TECHNICAL SPECIFICATIONS

75% of LG HI-Macs is composed of natural minerals and very fine acrylic, mass-pigmented in Alpine White. The most advanced production process ensures the highest quality of the surface and high technical performance.

Technical specs:

- It does not absorb: it is non-porous and extremely resistant to stains
- Its colour does not change over years
- It is ecological and hygienic thanks to the acrylic resin
- Easy to clean: no special care is required.

For everyday cleaning, simply use a damp cloth and a soft cleanser.

Tougher stains can be removed using bleaching agent (apply just for 5 minutes and then rinse with a domestic all-purpose cleanser and water); stubborn stains, scratches and small cigarette burns can be removed with an abrasive creamy detergent.

LG HI-Macs is manufactured under the best environmental and quality certifications (ISO 9001 and 14001).

PaperStone® for Yale Low Table

TECHNICAL SPECIFICATIONS

PaperStone® is a composite made from 100% recycled paper and petroleum-free, water and vegetal oil-based resins. It has no-detectable formaldehyde.

Paper and natural resin composites have a high resistance to tensile stress, compression, impacts and bending stress, abrasion, acids, and fire. In addition, they do not absorb water.

PaperStone® is stain-resistant and easy to clean with a standard household cleaner.

It also has a natural look and a warm touch, comparable to stone.
