

A family of coffee tables made with the same materials and in the same finishes of the Colors tables (see page 4.18).

Dims

Rectangular coffee tables in 12 size options. Height: 30 or 15 cm.

The LG HI-MACS-topped coffee table is not available in the size 200x200cm.

The maximum sizes in the price list are determined by production limitations.

The frame of 200 cm large square tables comes with a standard central support bar in steel lacquered in the same colour of the frame.

Measurement tolerances: the top is 1 mm smaller at each side than the structure. Tolerances are +/-0,5 mm. Due to the tolerances of the various materials, the top may lie slightly above or below the edge of the frame.

Special sizes

Custom-made tables require extra work, consequently additional costs and longer lead time if compared with standard pieces. For lead time, please contact our Sales Department

In case of **top size variation**, the price will be calculated on the basis of the next table measurement up from the size ordered plus 30%.
