

**Quadro Wood**  
The Traditional.

**Classic and flexible.**

The sophisticated seat design combines the clear outline of the simple wooden chair with the flexible seating comfort. Four flexi-springs that connect the seat cushion and the back provide additional flexibility. The combination of the light wooden frame with individually selected materials for seat and backrest offer a large variety of applications.

**Dietiker**  
Switzerland

Whether warm wood, high-quality fabric or fine leather: The large variety for seat and backrest offer the right version for

any situation. Legs and frame of solid beech-wood, stained in light are dark shades. The finest craftsmanship goes into every detail.

Model 4001EG

## Quadro Steel

The special one.

### Apart from the rest.

Quadro is a steel frame chair of a different breed. The unique shape with crisp contours is based on a thoroughly thought out metal design.

Quadro dazzles with its unostentatious design combined with outstanding sitting comfort. A flexible connection between seat and chair back is the secret of its highly acclaimed elasticity.

Design 1991.

## Quadro Steel

Der special one.

### Comfort that fits.

Discreet design and thoroughly thought out steel construction with an elastic detail: The four flex springs connect seat with chair back. They are what awards the Quadro the highly appreciated elasticity.
