

One of the most beautiful and versatile seating systems ever conceived, Zola breaks new ground as a high-style, high-function solution for corporate, healthcare, educational and public spaces. With superb continuity and an extensive product offering, it seamlessly ranges from freestanding soft seating and tables to a wide array of modular and linked groupings.

Krug offers an extensive range of furnishings for private office and conferencing, and a comprehensive seating collection. A company-wide program is in place to reduce the impact of our products and process on the environment. For a copy of this program, or more information about products, please contact your local Krug representative, or Krug Customer Service.

Different upholstery materials can be specified in any combination within the same unit and configuration, allowing for a range of durability and aesthetics. Tables are available in veneer, plastic laminate, and Palette finishes - and an optional solid surface top.

Zola is also built to last: its heavy-duty structure is designed for intensive use environments. When any component is damaged or degraded, it can be easily changed out on its own, instead of having to replace or repair the entire unit. Along with its use of recycled and recyclable materials, the replaceability of components means Zola can provide exceptional long term value, and be an investment in sustainability.

CLEAN OUT & ARM CAP OPTION

A clean-out space between the seat and back makes for easier cleaning and maintenance. An optional urethane arm cap provides durability and assists with infection control.

WALL SAVER

The angle of the Zola Lounge back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the room.

OPTIONAL CASTERS

Hard wheel swivel casters are available on Zola Lounge chairs. The back two casters have the ability to lock and feature a large, easy access foot activation and release lever.
