GENERAL INFORMATION

Terms and Conditions

Net 30 days on approved credit. A late payment charge of 1% per month will be applied on overdue invoices. This charge will be pro-rated to the number of days past 30 days that the invoice is overdue. All applicable sales taxes are extra. Distribution of this price list does not in itself constitute an offer to sell. Orders can be received only from authorized Krug dealers. Acceptance of any order and terms of sale may be established at the discretion of Krug. Deposits are required on orders received from new accounts as well as on large or special orders. Krug reserves the right to discontinue designs, or to change designs, construction, prices, or materials without notice.

Customer Service Hours

Please note customer service hours are:

8:30 am to 5:00 pm est

1.888.578.KRUG

1.519.748.5177 fax

Order Acknowledgements

Each order will be acknowledged via e-mail or fax. This acknowledgement is the final agreement between Krug and the customer, superseding all previous communications regarding the purchase order. Where there is a discrepancy on a purchase order between a product code and a description, Krug will make every effort to resolve the discrepancy, but will be ruled by the product code ordered. Please check all acknowledgements for accuracy, and advise Krug of any discrepancies with a purchase order.

Cancellation

A cancellation can be made only by expressed agreement with Krug. A cancellation fee may be incurred for restocking.

Dimensions

Dimensions are in inches and approximate, and subject to change without notice. Contact Customer Service if dimensions are critical.

Blanket Wrapping

Krug will blanket wrap seating orders at customer's request. Please indicate on your purchase order and contact Customer Service.

Storage Charges

Krug reserves the right to assess a nominal storage charge if a customer does not accept shipment of an order within a week of the ship date.

Contact Information

Phone: 1.888.578.KRUG

Fax: 1.519.748.5177

Purchase Order Fax: 1.888.236.4783

Installation Support

For assistance please contact Technical Support at 1-888-578-5784 x216 or e-mail installationhelp@krug.ca and you will be directed to the appropriate installation support person.

Pricing

Krug endeavors to ensure that all prices in this price list accurately reflect our current prices. However, errors do occur and will be rectified through notices to the field. Krug reserves the right to acknowledge pricing that may be different from the price list.

Warranty

Krug warrants Jordan products to be free from defects in materials and workmanship for the lifetime of their use. This warranty is applicable to products in use by their original purchaser. This warranty does not apply to components and materials not manufactured by Krug: these are subject to the specific warranties of their manufacturers (if any). Repairs or replacement of any defect covered under this warranty by Krug will be made, at our option and method, at no charge to the original purchaser. Krug's judgment is final and binding with respect to the nature or cause of defects or damage, and the necessity or manner or repair or replacement.

This warranty does not apply to defects or damage resulting from:

- normal wear and tear occurring with the use of the product
- negligence, misuse, excessive use, alteration, improper cleaning or repair
- substitution or use of incorrect or unauthorized components or material
- handling or installation that is incorrect, or that causes damage or defect
- damage incurred by a freight carrier other than Krug
- wearing of finishes and fabrics, and normal variations in materials (including dye lot variations)
- properties of natural materials, including wood and leather
- exposure to environments with uncontrolled temperature and humidity (products must be transported, stored and used in climate-controlled conditions)

Export Packaging

Krug is pleased to provide the option for export packaging on all our products, to provide additional protection from damage.

Export packaging is provided at an upcharge of 5% of the net selling price per item.

Export Packaging is STRONGLY RECOMMENDED for:

(A) all shipments outside of the lower 48 states and Canada

(B) all shipments that will be held in storage for an extended period prior to installation.

Important: Please note that Krug will not be responsible for damage claims on product shipped or stored in the above conditions but where export packaging has not been utilized.

Please contact Customer Service for specifications or any other assistance regarding export packaging.

Freight Terms and Conditions

1. All product is shipped FOB the Krug factory. Freight is either pre-paid to the destination (dealer's dock or territorial warehouse) or not pre-paid, depending on established customer specific freight terms.

2. Docks at the selected delivery location must be equipped to handle a 53' trailer. If a dock is adequate for delivery by Krug, Krug will re-deliver to another local location and any additional costs will be charged to the customer.

3. When a Krug territorial warehouse (where available) is selected as the default delivery location, it is understood that Krug pays freight cost to the territorial warehouse only, and no further. The Customer is responsible for all charges from this point.

4. For all deliveries, it is understood that Krug or its agent is making a dock delivery only (equipped to handle a 53' trailer), and any further work of truck unloading, delivery beyond the dock, installation, and removal of packaging is not authorized or paid for by Krug.

5. Drop shipments to the installation site, and timed deliveries, are available on larger shipments (full truckloads or slightly less) at no additional charge. Drop shipments or timed deliveries for smaller shipments may not be available, or if available will require a surcharge. Deliveries on an after hours basis, or on weekends, or any other special requirements, may be subject to a surcharge. Location and contact information, and the requested time of delivery, is required at least one week prior to the acknowledged shipment date. If this information is not provided one week in advance, or if the location or time of the drop shipment is changed less than one week in advance, a surcharge may be applied, and/or the drop shipment may not be scheduled. For deliveries requested Monday to Thursday after 5:00 pm, please apply a surcharge of \$250/shipment. For deliveries requested Monday to Friday before 7:00 am, please apply a surcharge of \$250/shipment. For deliveries requested Friday (after 3:00 pm) or weekends, please apply a surcharge of \$500/shipment. (local times)

6. For all deliveries - whether to the Customer location or drop shipment - any circumstances that result in the delay of our carrier (including unsuitable receiving facilities, or facilities not open or available), service charges will be applied at the rate of \$75/hour. Where re-delivery is necessary because of these circumstances, the full cost of re-delivery will be charged. If Less Than Truck Load is delivering, one hour is allocated to unload. Any additional time required to unload after the first hour is \$75/hour. If a Truck Load is delivering the order, three hours is allocated to unload.

Any additional time required to unload is \$75/hour. Direct deliveries to site for net orders are possible, (must exceed \$60,000 net), and accommodate 48 - 53' trailers. Krug is responsible for delivery to the approved delivery address. If an address change is required, this must be authorized by Krug 5 business days prior to ship date. Any additional delivery costs incurred after this time will be charged to the customer.

Product Strength and Durability Testing

All Jordan products have been thoroughly tested, and exceed the testing requirements of ANSI / BIFMA X5.1 - 2002 for seating, and ANSI / BIFMA X5.4 - 1997 for lounge seating. Lounge seating also has been tested to, and exceeds - 80 - 214A.

In addition, Jordan Bariatric seating has been tested to significantly greater standards for strength. It has been tested to, and exceeds a 450 lb. proof load test on the back, and an 750 lb. drop test on the seat.

The Jordan Bariatric Patient chair has been tested to, and far exceeds, the ANSI/BIFMA X5.4-2005 Backrest Strength Test. This is a static load test which is not designed for bariatric requirements - so we have developed a product that more than doubles the testing load of the ANSI/BIFMA test, exceeding 450 lbs of static load on the back. The seat (and overall frame) strength has also been tested to exceed 750 lbs of drop load on the seat.

Specific test results and documentation are available on request.

Customer Satisfaction

It is the primary goal of Krug and our staff to ensure the complete satisfaction of our customers with our products and performance.

If a problem arises with a Krug product after the expiration of the limited warranty period, Krug will exercise its best efforts to achieve the satisfaction of the customer in a manner that is fair to all concerned.

Damaged Shipments

All Krug product is well engineered, carefully inspected, and expertly loaded onto our trucks at our Distribution Center. If you receive any damaged freight, we ask that you do not refuse the shipment. Krug is not responsible for damage to goods that occurs in transit or storage. It is the purchaser and/or receiver's responsibility to examine the goods upon receipt and to notify Krug of any damages, overages or shortages. Any discrepancies should be noted on the Bill of Lading. The delivering carrier will not accept responsibility for shortages or damages if signed "clear". Notification of concealed damage claims must be made to Krug Distribution within 5 days of delivery, along with digital pictures if available. All product and packaging must be available for inspection. Krug liability ceases after 5 business days and Krug will not be responsible for concealed damages if shipments are left unopened. Krug is not responsible for the condition of product that is stored or installed in an environment where temperature and humidity are not controlled.

Products must be opened and inspected on receipt, and any products not inspected when received, or held in storage, cannot be subjected to damage claims.

Field Product Report Authorization

Krug's written authorization, in the form of an FPR number, must be obtained prior to incurring charges of any kind if Krug is expected to pay these charges. This includes authorization for field repairs and replacements, installation and delivery charges. Krug reserves the right to have its representative inspect product related to any request for such authorizations, prior to that authorization being provided. Deductions from invoices paid for an charges to Krug, without prior written authorization in the form of an FPR, will not be accepted. Digital photographs may be required to complete the FPR process.

Returns

No merchandise may be returned without Krug's prior written consent. In the event of an authorized return, a Field Product Report (FPR) number will be issued, and a restocking charge will apply. Return transportation charges must be prepaid. Unauthorized returns will not be accepted and will be returned

freight collect. All merchandise being returned must be properly packaged in its original or comparable replacement packaging to ensure protection of the product during handling and transportation. Returns on orders duplicated by the customer must be received in their original packaging to be accepted. Product being returned where Krug has authorized its liability for replacement or repair will be thoroughly inspected on its return, and the results compared to the reason for the return stated on the FPR. Any discrepancies, such as additional damage, signs of usage, missing parts, etc., will result in an adjustment to the amount of credit issued.

Custom Capabilities

Over 15% of our orders involve some type of custom work, and we invite our customers to make use of our extensive capabilities.

These include:

- 1) Dimensional customization of standard size products
- 2) Custom finishes
- 3) For larger orders, completely custom-designed products, as well as non-standard wood species can be specified.

Custom orders may require additional production lead times. Contact Engineering at the e-mail address engquotes@krug.ca for pricing of custom products.

Care and Maintenance Wood Finishes

Although Krug's extensive finishing process ensures a durable finish on all our products, there are several steps that can be taken to protect and prolong the life and beauty of the finish. Dust only with a clean, dry cloth, going with the grain. Clean any marks with a damp cloth, using a small quantity of mild soap or detergent. Do not use any wax-based polish, spray or silicone. Eventually, a film will build up and discolor the top. Do not place your furniture in a position of permanent exposure to direct sunlight.

Leather

Leather is a natural product and requires very little care during use. Most stains can be removed with a clean dry cloth. For stubborn spots and stains, use a mild non-detergent cleaner, rinse well and let air dry naturally. Do not use saddle soap, cleaning solvents, furniture polish, oils, varnish, abrasive cleaners, soaps or ammonia waters.

Fabric Upholstery

Professional upholstery cleaning is recommended.

Laminates

Clean Laminate surfaces using a damp, soft cloth. Tough stains may be cleaned using a soft cloth, dampened with a "Formula 409" of "Simple Green" type cleanser.

WOOD FINISHES

Wood Finishes

Wood Finishes for Seating & Occasional Tables

Standard wood finishes are:

Finishes on Beech

Appalachian Cherry
American Cherry
Imperial Cherry
Light Cherry
Medium Cherry
Natural Cherry
Sable Cherry
Standard Cherry
Light Oak
Harvest Oak
Mahogany
Mellow Oak
Espresso
Cordovan Walnut
Dark Walnut
Natural Walnut
Regular Walnut
Clear Beech
Medium Anigre

Finishes on Maple

Clear Maple
Honey Maple
Wheat Maple

Natural Characteristics of Wood

Wood is a natural product with inherent color variations that will never be fully mitigated by the finishing process. Please anticipate variation in colors within a single unit, from piece to piece, and from Krug wood finish samples. If a very close match is required, a sample must be provided with the order and an upcharge will apply. Exact color matches are not possible.

Custom Wood Finishes

Add 10% list to your order for special finishes, minimum upcharge is \$500 list per finish per order. (For example, on all orders up to \$5000 list an upcharge of \$500 will apply, on orders \$5000 and up add 10% list to order.) Special finish upcharges on seating products are calculated on a grade 1 value. For orders with special finishes, a sample that is a minimum 3" by 3" must be received with the order. Special finishes may add additional lead time to production schedules. Since wood is a natural product, some variations in grain, color and stain acceptance will occur. In our finishing processes, we try to minimize variations, but some variation between samples and finished goods should be anticipated.

Dual Finishes

Add 10% list per item if specifying dual finish.

Standard Wood Finishes

No upcharge will be applied when specifying a finish available as standard on one species onto maple seating and occasional tables. Clear finishes are not available on other species since they are a clear finish on top of the natural veneer color.

GREENGUARD

Many Krug products have earned the GREENGUARD™ Environmental Institute's GREENGUARD™ Certification for low emitting interior products. All GREENGUARD™ Certified products and materials are tested regularly to ensure continued low emitting status.

Specifying and design professionals can trust GREENGUARD™ Certified products to create superior interior environments with out added cost or effort. All GREENGUARD™ Certified products can easily be found online in the GREENGUARD™ Product Guide. A printable certificate is available for each product in the guide to simplify project submission and product verification.

For more information or to obtain an up-to-date listing of Krug's GREENGUARD™ Indoor Air Quality Certified® products please visit www.krug.ca/ or www.greenguard.org.

All Jordan products have received GREENGUARD™ certification.

In-Stock Fabric Program

Please contact Customer Service for specific information on leathers and lead times.

CUSTOMER'S OWN MATERIAL - C.O.M.

Customer's Own Material (COM/COL)

COM/COL must be received three weeks prior to the acknowledged ship date. Orders with COM/COL not received by the required deadline will be delayed.

A description of the upholstery cover, including supplier name, pattern name, upholstery cover name and color number must be included with the purchase order.

COM/COL testing requires 3 business days and samples are to be directed to Customer Service. The customer has the option of providing the sample COM/COL before, at time of order, or once the sample COM/COL is received. If the customer does not send a sample for approval in advance of sending actual material, Krug will not be responsible for the cost of any upholstery cover or other material that it determines to be unsuitable for the product or our process.

When the COM/COL upholstery cover is received at Krug, it must be clearly identified with the upholstery cover name and color, and tagged with name of the Krug customer and purchase order number. Krug will inspect all COM/COL upholstery covers when received to determine if it will be suitable for upholstery. Where Krug feels that the upholstery cover or leather specified will compromise the quality or integrity of our products, customers will be contacted to direct these concerns. Further, Krug reserves the right to refuse to accept and use any COM upholstery covers or leathers that will compromise our products in any way that is unacceptable to Krug. Krug cannot assume responsibility for the durability or tailoring quality of customer's own material.

Yardage specified in this price guide is approximate. In the case of multiple product orders, multiply the number of items by the COM yardage specified to determine upholstery cover required, unless otherwise indicated. Additional yardage may be needed if the material is less than 54" wide, patterned or striped and requires matching, or when shipped in multiple pieces. All COMs are cut "up the roll" unless otherwise stated by the customer. All striped upholstery covers will be applied vertically unless otherwise stated by the customer and after approval by Krug. Krug will not be responsible for directional or positional problems with its application of COM material, unless it has been provided with explicit instructions by the customer. Special instructions should be sent to Krug Customer Service, including a sample (or photocopy) of the upholstery cover. Krug is not responsible for instructions sent with the upholstery cover rolls, or for the method of upholstery if no instructions have been provided.

Price increases and freight charges to COM/COL acquired on the customer's behalf will be passed onto the customer.

Application of Directional Upholstery cover

Some COM upholstery covers will be considered directional by Krug even though they are not considered directional by the supplier.

All COMs are automatically cut "up the roll" unless otherwise stated by the customer (please see below).

Standard-Cut
"up the roll"

Non-Standard-Cut
across the roll "railroad"

COM/COL Shipping Procedures

For seating COM/COL upholstery covers, please send upholstery covers to:
Krug Inc.

111 Ahrens Street
Kitchener, Ontario
Canada N2H 4C2

Attention: RECEIVER

COM/COL orders cannot be scheduled into production until the upholstery cover has arrived and inspection is complete.

All packages must be clearly marked "**For Customs Clearance by Russell A. Farrow Custom Brokers**".

According to the North American Free Trade Agreement (NAFTA), goods shipped between the United States and Canada can qualify for exemption from all duties, or for a reduction in duties, if the goods can be proven to originate in either the United States, Canada or Mexico.

Canada Customs requires that a NAFTA Certificate of Origin and a Commercial Invoice be completed and sent with the upholstery cover shipment. The Commercial Invoice must clearly state the description of the upholstery cover, the selling price, the make-up or content, and the purchaser. The absence of these two documents will delay the shipments at the U.S./Canada border, thereby potentially delaying the customer order. If the total value of the shipment is less than \$1200 U.S., Customs will accept a Low Value Statement of Origin in place of the NAFTA Certificate of Origin. The Low Value Statement must be signed by a representative of the exporting company. This statement may either be included on the commercial invoice or attached to the invoice.

Krug is happy to answer any questions or concerns about COM/COL shipping procedures and the required documents. Please contact our Customs Specialist at 1.888.578.5784.

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks.

Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for **\$40 list** per yard

C.O.L. Yardage

To calculate C.O.L. yardage required, please use the following conversions based on COM yardage: Leather must be ordered in square footage.

- 17 square feet in a yard
- Approx. 3 yards in a hide
- Approx. 51 square feet in a hide
- Please use grade 3 pricing for COL

CUSTOMER'S OWN MATERIAL - C.O.M.

Upholstery Cover Yardage Calculation

To calculate yardage required for COM and other non-standard upholstery cover orders, please contact Krug Customer Service at 1.888.578.5784.

Unless otherwise stated, upholstery cover rolls are assumed to be a minimum 54" wide. Please use the guide below to calculate the percentage of extra upholstery cover required to cover large repeats.

The repeat is calculated by adding both the vertical and horizontal measurements together and then referring to the chart below for extra yardage required.

FABRIC	2"-14"		15"-19"		20"-27"		28"-36"	
	Plain	Repeat	Repeat	Repeat	Repeat	Repeat	Repeat	Repeat
54	0%	10%	15%		20%		25%	
53-50	16%	20%	25%		30%		35%	
48	16%	25%	30%		35%		40%	
45	40%	50%	55%		60%		65%	
36	50%	60%	65%		70%		75%	

MAHARAM, MOMENTUM & CF STINSON UPHOLSTERY COVERS

Krug has co-operative programs with Maharam, Momentum and CF Stinson, designed to provide a wide range of upholstery cover selections for our seating.

When placing an order, a Krug customer must specify the complete Maharam, Momentum or CF Stinson upholstery cover number, along with the appropriate Krug model number and finish. Krug will supply the complete product at the prices listed. Orders specifying Maharam, Momentum, or CF Stinson upholstery cover cannot be cancelled once the upholstery cover has been ordered.

Upholstery Cover Grades

To determine the price of a product in Maharam, Momentum or CF Stinson upholstery covers, use the reference lists on pages 7-9 to reference the upholstery cover grade (1-9). Please contact Customer Service for information on upholstery covers not listed. When two upholstery covers are specified for use on seating, the higher grade upholstery cover price will apply to the order.

Upholstery Cover Samples

If you require additional samples or memos for presentation, please contact Maharam during business hours at: 1-800-645-3943 in Canada and in the United States, Momentum at 1-800-366-6839, CF Stinson at 1-800-841-6279.

Flammability Standards

- Tunnel Test Surface Ratings Class A rating
- Class 1 UFAC
- Passes State of California Technical Bulletin 117-Section E

Please contact Maharam, Momentum or CF Stinson directly for further flammability information pertaining to specific upholstery covers.

Special Conditions

Acknowledgements will give the estimated ship date of the finished product. Some Maharam, Momentum and CF Stinson upholstery covers are imported, and availability may affect estimated ship time. Maharam, Momentum and CF Stinson reserve the right to discontinue patterns or colors from their program. For large projects, please contact Maharam, Momentum or CF Stinson and directly confirm availability of yardage.

PLASTIC LAMINATES | POLYMER EDGES

In-Stock Laminates

Krug's in-stock laminates are available in 16 laminate selections. There are 8 wood grain laminates, 4 solid color laminates in a selection of popular shades and 4 Exotic laminates offering a distinguished appearance. Exotic laminates are subject to minimum order quantities and extended lead times. Polymer edges will automatically match the laminate selected.

IN-STOCK LAMINATES

Wood Grain Laminate

Name & Number	Supplier	Polymer Edge Names
Corretto Cherry HP-288-N	Pionite	Corretto Cherry
Flamenco Cherry T462	Arborite	Flamenco Cherry
Mocha Cherry HP-341-N	Pionite	Mocha Cherry
Monticello Maple 7925	Wilsonart	Monticello Maple
Nightfall WX421-N	Pionite	Nightfall
Samba Cherry T460	Arborite	Samba Cherry
Shiraz Cherry T472	Arborite	Shiraz Cherry
Sugarloaf Maple T630	Arborite	Sugarloaf Maple

Solid Laminate

Name & Number	Supplier	Polymer Edge Names
Almond T445	Pionite	Almond
Black T203	Arborite	Black
Shadows T201	Arborite	Shadows
White D354-60	Wilsonart	White

Exotic Laminate

Name & Number	Supplier	Polymer Edge Names
Backwoods Sycamore HP689-N	Pionite	Backwoods Sycamore
Edgewood Sycamore HP690-N	Pionite	Edgewood Sycamore
Gunstock Walnut WW971-N	Pionite	Gunstock Walnut
Thunderstorm HP359-N	Pionite	Thunderstorm

NON-STOCKED PLASTIC LAMINATES

For specific lead time and application questions, please contact Krug Customer Service for your requirement. Upcharges will be applicable for non-stocked laminates, depending on their cost. Non-stock laminates may require minimum order quantities, please check with customer service. Stocked Polymer edges can be specified for use with non-stocked laminates.

The following non-stock plastic laminates are acceptable for application on Krug products as they feature a matte finish:

Nevamar	All plastic laminates with "T" in the suffix (i.e., MR2002T)
Wilsonart	All plastic laminates with "60" in the suffix (i.e., 4779-60)
Arborite	All plastic laminates with "CA" in the suffix (i.e., 1531-CA)
Pionite	All plastic laminates with "Suede" in the name (i.e., WW561 Suede)
Formica	All plastic laminates with "58" in the suffix (i.e., 756-58)

Arborite Laminates	1.800.996.0366	Formica Laminates	1.800.367.6422
Wilsonart Laminates	1.800.433.3222	Nevamar Laminates	1.800.638.4380
Pionite Laminates	1.800.746.6483		

Additional plastic laminate codes may be acceptable for use on Krug furniture, however, they may be subject to an additional upcharge or extended lead time. High sheen plastic laminates are not acceptable for application on Krug furniture due to their inherent nature of scratching and marring during the production process.

KRUGEXPRESS PROGRAM

PROGRAM DETAILS

KrugExpress orders are ready to ship by the date acknowledged. Delivery and shipping schedules may result in actual shipping of orders at a later date. Statutory holidays and scheduled factory vacations may add to acknowledged lead times of *KrugExpress* orders. Unless otherwise specified on the order, the customer's standard method of shipping Krug products will be utilized.

Available factory capacity for *KrugExpress* is filled by orders received on a "first come, first serve" basis. If the normal *KrugExpress* lead time is not available for your order because available capacity has been filled, you will be immediately advised of the earliest available ready-to-ship date. Please consult your Customer Service representative in advance if you wish to confirm the specific lead time availability for a *KrugExpress* order.

Orders must be received by midnight of a given day for that day to be considered the official day the order is received. Order lead times are acknowledged from the date the order is received, but not including the date the order is received.

KrugExpress orders must be "clean" when received in order to be considered officially received on a given day, and lead times will be acknowledged from the date orders are determined to be "clean". Changes to *KrugExpress* orders are not allowed under any circumstances.

Orders for product on *KrugExpress* must clearly state: "*KrugExpress*".

Maharam, Momentum and CF Stinson are available on *KrugExpress*. *Some conditions apply.

SEATING PROGRAM

Orders for seating products on the *KrugExpress* program may be subject to quantity maximums. Please contact Krug Customer Service for more information.

Quantity maximums are dependent upon available capacity, in order to insure that we ship all orders on time.

Only standard wood finishes are available for *KrugExpress* orders.

Please note that Jordan Moisture barriers and the CAL 133 are not available on *KrugExpress*. Please note Jordan Plastic Laminate Linking Tables are not available on *KrugExpress*. Wood tops with wood edges are available on *KrugExpress* but with a minimum order requirement of 5 tables per order.

JORDAN | GUEST, PATIENT, MULTIPLE & EASY ACCESS FEATURES

CLEAN OUT

All Jordan seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Jordan to well exceed ANSI/BIFMA standards.

FLEX BACK

The ergonomically designed back has been designed with a slight flexing action, to enhance the level of long-term sitting comfort, and provide greater ease of egress.

WALL SAVER

The angle of the back and the rear legs are designed to keep the back away from the wall, to prevent wear and damage to both the chairs and to the walls of the facility.

CLEANABLE UNDER-SEAT SPLASHGUARD

All Jordan seating models are available with a plastic moisture barrier that covers and encloses the underside of the seat (while still allowing air transfer and ventilation in and out of the seat cushion). The Splashguard significantly enhances the anti-microbial and germ resistance properties of the product, by enclosing the part of the chair that can be most susceptible to infection-causing pathogens. The Splashguard is a smooth, easy to clean surface, either while on the chair or when removed, and is also field replaceable. The upcharges for the Splashguard are based on the size of the seat: 21" & 24" seats - \$25 list, 30" seat - \$30 list, 44" seat - \$40 list

URETHANE ARM CAP

The optional arm cap provides enhanced durability and protection for the arms. This is field replaceable if this becomes damaged or degraded.

JORDAN | GUEST, PATIENT, MULTIPLE & EASY ACCESS FEATURES

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

Guest & Patient Chairs (21" & 24") - 350 lbs

Bariatric Chairs (30" & 44") - 750 lbs

Easy Access Chairs - 350 lbs

Multiple Seating & Pre-configured - 350 lbs per seat

2-Seat Freespan - 525 lbs per unit

3-Seat Freespan - 750 lbs per unit

21" & 24" Bench - 350 lbs

30" Bench - 750 lbs

48" Bench - 525 lbs per unit

72" Bench - 750 lbs per unit

REPLACEABLE COMPONENTS

Jordan chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs, frames are field replaceable. Pricing and model numbers can be viewed online at www.krug.ca.

EASY ACCESS ADJUSTABLE GLIDES

With the larger footprint of this chair and critical importance of stability of the user, we have included adjustable glides on the front legs - this allows the Easy Access chair to be perfectly leveled to any floor for maximum safety and stability.

CUSTOM CAPABILITIES

Modifications in dimension, seat and back shape or thickness, and other modifications are possible with Krug's capability to customize for specific requirements and needs. We can also provide custom finishes.

GANGING

All Jordan freestanding chairs can be ganged using a ganging bracket. The powder coated metal bracket is fastened to the inside face of each side frame. Ganging Brackets are available for an upcharge of \$35 list per chair.

OPTIONS

Combination Upholstery Options

When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$20 list per unit and \$40 list per unit for three fabrics will be applied. When graded in combination upholstery is selected, use the highest upholstery selected or contact Customer Service for a quote (please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote)

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks.

Krug assumes no responsibility for the testing of our products in combination with upholstery covers, or for the results of any testing conducted. Some specific configurations of products and upholstery have already been tested. Please contact Customer Service for additional information. CAL 133 and Moisture Barrier is available for \$40 list per yard

Removable Covers & Replacement Components

Jordan chair (all sizes) are available with Removeable Seat Covers for an upcharge of \$55 list per chair. Jordan chairs with Guest Backs (21", 24") are available with Removeable Back Covers for an upcharge of \$35 list per chair. Jordan 30" and 44" chairs with Guest Backs are also available with Removeable back option for an upcharge of \$55 list per chair.

Jordan Patient Chairs (all sizes) are available with Removeable Seat Covers for an upcharge of \$55 list per chair. Jordan chairs with Patient Backs (21", 24") are available with Removeable Back Covers for an upcharge of \$55 list per chair.. Jordan 30" Patient Back models are also available with Removeable back option for an upcharge of \$90 list per chair.

Replacement seat and back covers can be quickly installed on Jordan products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Jordan products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs

ADDITIONAL FEATURES

- Lifetime warranty
- Greenguard certified

- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Mortise and tenon frame construction, for optimal strength in wood joinery.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CAL 117 with most fabrics
- Certified to meet CTB 133/ ASTM E 1537 with appropriate fabrics

JORDAN | GUEST & BARIATRIC

30" & 44" - Four Chairs	10.8	3.6	6.4	2.7

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.

For Maharam or Momentum, Krug will obtain the fabric sample.

2. The sample will be reviewed and the customer advised if the fabric is unsuitable.

3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Guest Chairs are available with a **Moisture Barrier & CAL 133** for an upcharge of **\$40 list** per yard.

Jordan Guest chairs (all sizes) are available with **Removeable Seat Covers** option for an upcharge of **\$55 list** per chair.

Jordan Guest chairs (21" & 24") are available with **Removeable Back Covers** option for an upcharge of **\$35 list** per chair.

30" and 44" models are available with **Removeable Back Covers** option for **\$55 list** per back.

21" & 24" Guest Chairs are available with a **Cleanable Under-Seat Splashguard** for an upcharge of **\$25 list** per chair.

30" Bariatric models are available with a **Cleanable Under-Seat Splashguard** for an upcharge of **\$30 list** per chair.

44" Bariatric models are available with a **Cleanable Under-Seat Splashguard** for an upcharge of **\$40 list** per chair.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order.

For Maharam or Momentum, Krug will obtain the fabric sample.

2. The sample will be reviewed and the customer advised if the fabric is unsuitable.

3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

JORDAN | MULTIPLE SEATING INSTRUCTIONS

To aid you in the process of specifying and ordering Jordan Multiple Seating, we have compiled the following summary. It explains the three different types of Jordan Multiple Seating – (a) Pre-Configured, (b) Start, Center & End Units and (c) the Freespan Multiple Units – including the features and considerations of each type, to assist in selecting the one that best suits each application. It is a requirement for all Jordan Multiple Seating orders, a drawing or plan view layout must accompany the order, so that we can verify that the specification is correct.

When building your multiple seating layout, please note that your order should start from left to right as you are facing the configuration.

Pre-Configured Multiple Units

Pre-Configured Multiple Units are designed to be used when you have seating configurations that are 2-3 chair units in size (see picture below).

Two-Seater

Considerations if choosing to use Pre-Configured Units:

- Linking tables can be joined to either end of a Pre-Configured Multiple Unit, but not in-between
- There are no limitations to the number of Pre-Configured Multiple units that can be ganged together with the Jordan Linking Tables
- Pre-Configured Multiple Units are not available in 30" or 44" bariatric widths
- Pre-Configured Multiple Units are not designed to work with other multiple seating (Start, Center, End Units or Freespan Units) unless a Jordan Linking Table or linking brackets are used in-between the different types of multiple seating.
- Pre-Configured Multiple Units are built from Start, Center and End Units and therefore, can be reconfigured to singular or two-seater units. However, you may have to purchase additional components (arms, etc...) to be able to do this. See line drawings below for possible configurations that can be made from taking apart the Pre-Configured Multiple Units.

*Please note:

Example #1-A requires an additional end unit arm for chair A, and a start unit arm for chair B.

Example #1-B requires an additional end unit arm for chair A, a start and end unit arm for chair B, and a start unit arm for chair C.

Start, Center and End Multiple Seating Units

Start, Center and End Multiple Units are designed to be used when you have seating configurations that are greater than three chair units in size, and/or include 30" or 44" units (see picture below). Also, before you start to build your multiple seating layout, please note that your order should start from left to right as you are facing the chair, therefore begin the configuration with a Start Unit, then move to a Center Unit and finish with an End Unit.

Considerations if choosing to use Start, Center and End Multiple Units:

- Start, Center and End units are available in all widths (21", 24", 30" & 44")
- There are no limitations to the amount of center units that can be ganged to a start or an end unit
- Jordan Linking Tables can be joined to any Jordan Start or End unit only (this is because the units are engineered with the finished arms)

JORDAN | MULTIPLE SEATING INSTRUCTIONS

See below for sample configurations of when you would use Start, Center and End Multiple Units.

Freespan Multiple Units

Freespan Multiple Units are designed to be used when you have seating configurations that are 2-3 chair units in size and a reduced number of legs are desirable. (see picture below).

Considerations if choosing to use Freespan Multiple Units:

- Freespan Multiple Units come with a choice of a pre-configured unit with or without a center arm
- The unit with the center arm increases the overall width of the unit by 1" per arm
- Linking tables can be joined to either side of a Freespan Multiple Unit, but not in-between
- There are no limitations to the number of Freespan Multiple units that can be ganged together with the Jordan Linking Tables or linking brackets.
- Freespan Multiple Units are not available in 30" or 44" bariatric widths
- Freespan Multiple Units are not designed to work with other multiple seating (Start, Center, End Units or Freespan Units) unless a Jordan Linking Table or linking brackets are used in-between the different types of multiple seating.

Below illustrates possible configurations when you could use all three types of Jordan Multiple Seating together.

For more information on how to specify Jordan Multiple Seating, please contact Customer Service directly at 1-888-578-5784.

Note: Some vinyls, leathers & upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order. For Maharam or Momentum, Krug will obtain the fabric sample.
2. The sample will be reviewed and the customer advised if the fabric is unsuitable.
3. The COM fabric or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

ORDERING NOTES:

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Freespan Pre-configured Chairs are available with a **Moisture Barrier & CAL 133** for an upcharge of **\$40 list** per yard.

Jordan Freespan Pre-configured Seating (21" & 24") are available with **Removeable Seat Covers** for an upcharge of **\$55 list** per cover.

Jordan Freespan Pre-configured Seating (21" & 24") with Guest Backs are available with **Removeable Back Covers** for an upcharge of **\$35 list** per cover.

Jordan Freespan Pre-configured Seating (21" & 24") with Patient Backs are available with **Removeable Back Covers** for an upcharge of **\$55 list** per cover.

Replacement seat and back covers can be quickly installed on Jordan products that were originally ordered with the Removeable cover option. Replacement seat and back covers can also be installed on Jordan products that were not originally ordered with the Removeable cover option, with some simple staple removal on the original seats and backs.

21" & 24" Freespan Pre-configured Seating is available with a **Cleanable Under-Seat Splashguard** for an upcharge of **\$25 list** per seat.

Patient backs are available on Freespan units, please change the model number JOR2-PCFG to JOR2-PCFP and add the following upcharges per back:

21" Chairs Grade 1 **\$170 list**, Grade 2 **\$200 list**, Grade 3 **\$230 list**, Grade 4 **\$300 list**, Grade 5 **\$360 list**, Grade 6 **\$400 list**, Grade 7 **\$450 list**, Grade 8 **\$500 list**, Grade 9 **\$550 list**. 24" Chairs Grade 1 **\$180 list**, Grade 2 **\$215 list**, Grade 3 **\$243 list**, Grade 4 **\$320 list**, Grade 5 **\$380 list**, Grade 6 **\$430 list**, Grade 7 **\$480 list**, Grade 8 **\$540 list**, Grade 9 **\$595 list**.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

2-Seat Freespan - 525 lbs per unit

3-Seat Freespan - 750 lbs per unit

Jordan **replacement parts** can be viewed on-line at www.krug.ca

JORDAN | LINKING TABLES FEATURES

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

WOOD SPECIES

Solid Beech & Maple frames, and edges. Veneer tops.

LAMINATE AND POLYMER EDGE

Jordan tables are available in laminates with wood or laminates with Polymer edge. See page 10 for laminate information.

STANDARD FINISHES

For a complete list of standard wood finishes, please see page 3. Jordan tables are available in 22 standard finishes.

ORDERING NOTES:

Linking tables can be ordered in conjunction with any of the Krug Multiple Seating. Linking tables are connected to the Multiple Seating via U-Shaped brackets.

The design of the tables for Jordan Multiple Seating allows for any table to be very easily added or moved to a new position within the configuration - or completely replaced - after the product has been first installed. The attachment of the tables is designed so that they can be readily be taken out of the configuration without any defacing of the adjoining seat frames.

Linking Tables also feature a universal, non-handed design:

They can be moved to reverse position in almost any configuration, providing a high level of flexibility for reconfiguring.

Please note Jordan Plastic Laminate Linking Tables are not available on *KrugExpress*.

Wood Tops with Wood Edges are available on *KrugExpress* but with a minimum order requirement of 5 tables per order.

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

ORDERING NOTES:

Linking tables can be ordered in conjunction with any of the Jordan Multiple Seating.

Linking tables are connected to the Multiple Seating via U-Shaped brackets.

A drawing showing the configuration of the multiple seating and tables is required with each purchase order.

Rectilinear Corner Connector table 90° include a support leg in the outer corner.

When specifying Linking Tables please ensure that each unit has legs on either side of the table.

Please note Jordan Plastic Laminate Linking Tables are not available on *KrugExpress*.

Wood Tops with Wood Edges are available on *KrugExpress* but with a minimum order requirement of 5 tables per order.

ORDERING NOTES:

CONTRASTING BACKS, SEATS & CLOSED ARMS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Lounge Chairs are available with a **Moisture Barrier & CAL 133** for an upcharge of **\$40 list** per yard.

Jordan Lounge Chairs are available with a **Removable and Replaceable Seat Cover** at an up-charge of **\$100 list** per one-seater, **\$200 list** per two-seater chair and **\$300 list** per three-seater chair.

Jordan Lounge Chairs are available with a **Removable and Replaceable Back Cover** at an up-charge of **\$100 list** per one-seater, **\$200 list** per two-seater and **\$300 list** per three-seater chair.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

One -Seater - 350 lbs

Two- Seater - 525 lbs

Three - Seater - 750 lbs

JORDAN | LOUNGE FEATURES

CLEAN OUT

Jordan lounge seating models have a built-in clean out feature: a space at the back of the seat that allows dirt debris and liquid to be forced through and fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

GLIDES

Jordan Lounge is available with two options for glides - the current stainless steel glide, or the white nylon glide. The white nylon glide is ideal on flooring that is easily marked. The stainless comes standard unless the white nylon glide is specified when ordering.

FULL URETHANE ARMS

Jordan full urethane arms have a soft outer skin that enhances comfort and provides excellent grip for safety of ingress and egress. They are highly durable, easy to clean and maintain, and will retain a like-new look even with intensive use.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:
One -Seater - 350 lbs
Two- Seater - 525 lbs
Three - Seater - 750 lbs

REPLACEABLE COMPONENTS

Jordan Lounge chairs are uniquely designed to allow virtually all major components to be field replaced, providing a very cost effective means to significantly extend the life of the product. Seats, backs and Arms are field replaceable. Pricing and model numbers can be viewed online at www.krug.ca.

CUSTOM CAPABILITIES

Modifications in dimension, seat and back shape or thickness, and other modifications are possible with Krug's capability to customize for specific requirements and needs. We can also provide custom finishes.

OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is \$20 list per unit and \$40 list per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barrier & CAL 133 is available for an upcharge of \$40 list per yard.

Removable and Replaceable Covers

Jordan Lounge Chairs are available with a Removable Seat Cover at an up-charge of \$100 list per one-seater, \$200 list per two-seater chair and \$300 list per three-seater chair. Jordan Lounge Chairs are available with a Removable Back Cover at an up-charge of \$100 list per one-seater, \$200 list per two-seater and \$300 list per three-seater chair.

ADDITIONAL FEATURES

- Lifetime warranty
- Greenguard certified
- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Mortise and tenon frame construction, for optimal strength in wood joinery.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CTB 133/ ASTM E-1537 with appropriate fabrics

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

Jordan Glider - 350 lbs

Jordan **replacement parts** can be viewed on-line at www.krug.ca

FEATURES:

For a complete list of features see page 47.

JORDAN | GLIDER FEATURES

CLEAN OUT

Jordan Glider seating models have a built-in clean out feature: a space at the back of the seat that allows dirt, debris and liquid to fall to the floor for easy clean up and maintenance - designed so that it does not detract from the comfort or appearance of the product.

STEEL SEAT FRAME

The structural seat frame is made from welded steel with a powder-coated finish that allows Jordan Glider to well exceed ANSI/BIFMA standards.

METAL TO METAL CONNECTIONS

Steel seat frames are joined to other components, in Jordan Glider products, with hardened steel bolts and inserts, ensuring exceptional durability and strength, and easy reconfigurability, as well as on-site replacement of damaged or degraded components.

WALL SAVER DESIGN

The angle of the back and the rear legs are designed to keep the back away from the wall, in a locked position, to prevent wear and damage to both the chairs and to the walls of the facility.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

URETHANE ARM CAP

The optional arm cap provides enhanced durability and protection for the arms. This is field removable if this becomes damaged or degraded.

HEADREST

The headrest has a dual density foam for both comfort and support, and can be upholstered in matching or contrasting material. It is removable to allow for cleaning and replacement.

HORIZONTAL MOTION

The Jordan glider is designed to move the patient in a smooth, flat arc that is gentle, soothing and safe. The position of the feet is maintained on the floor throughout the glider motion, rather than being raised up down in a rocking motion.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

TWO WIDTHS

21" and 24" widths are offered, allowing flexibility in accommodating patients of different sizes, and providing for the comfortable use of bolsters, pillows and other means of support for the patient.

LOCKING, REPLACEABLE MECHANISM

The mechanism is both replaceable in the field, and features a locking function so the glider can be used as a fixed chair.

REMOVABLE UPHOLSTERY COVERS

The seat and back covers can be specified to be removable, allowing for cleaning and repair, or replacement.

REMOVABLE AND REPLACEABLE COMPONENTS

All of the components - the seat, back, the arms, the arm cap, and the mechanism can be removed for cleaning, and replaced if damaged. Replacement Parts can be viewed on line at www.krug.ca.

RECESSED FRONT PANEL

The Glider's front panel has an attractive arc that serves an important function: to provide safer ingress and egress by allowing the patient to get their feet underneath their weight. This is augmented by arms that have been designed as softly rounded hand-holds, to safely and comfortably support the weight of the patient while entering and exiting the chair.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:
Glider - 350 lbs

OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barriers & CAL 133 is available for an upcharge of \$40 list per yard.

JORDAN | GLIDER FEATURES continued...

Removable Covers and Replacement Components

The seat and back covers can be specified to be removable, allowing for cleaning, repair or replacement. Jordan Glider chairs are available with **Removable Seat Covers** for an upcharge of **\$55 list** per seat. Jordan Glider chairs are available with **Removable Back Covers** for an upcharge of **\$65 list** per back. Removable seat and back covers can be quickly installed on Jordan Glider products that were originally ordered with the Removable cover option. Removable seat and back covers can also be installed on Jordan Glider products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs.

ADDITIONAL FEATURES

- Lifetime warranty
- Greenguard certified
- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CAL 117 with most upholstery covers
- Certified to meet CTB 133/ ASTM E-1537 with appropriate upholstery covers

FEATURES:

For a complete listing of features see page 50.

JORDAN | RECLINER FEATURES

HIGH DURABILITY MECHANISM

Two standard mechanism options are available (described below), both are specifically designed for high-traffic, intensive use in care-giving environments. They are built with high-strength steel, and include Delrin™ wear pads between moving components for added smoothness and longevity.

3-Position Mechanism

This mechanism provides 3 distinct user positions: Position A - Seated with feet on the floor, footrest in down (closed) position. Seat-back angle is 104 degrees, and the back is reclined 20 degrees from vertical. Position B - Footrest is fully extended, back is in mid-position. Seat-back angle remains at 104 degrees, and the back is 25 degrees from vertical. Position C - Full recline with footrest fully extended. Seat-back angle is opened to 125 degrees, and the back is 45 degrees from vertical.

3-Position Mechanism with Trendelenberg

This mechanism provides the same positions described above, as well as the additional Trendelenberg position: full recline with footrest fully extended, seat-back angle remains at 125 degrees, but the back is now 65 degrees from vertical - resulting in the feet being above the head. It is activated by a foot-release lever that is accessible from either side of the recliner. Not available on Bariatric Recliners.

CASTERS

Standard on the Jordan recliner are (4) - 4" diameter soft wheel swivel locking casters, featuring a large, easy-access foot activation and release lever. The caster is locked both directionally and rotationally, keeping the recliner securely in place when locked. Note: recliners are not designed or intended as patient transport devices.

IV POLE & HOLDER

The Jordan IV Pole is height adjustable (in a range of 27"), and can be added in the field. It can be located in any of four locations (left or right, front or back) - if ordered with the recliner, the location must be specified at time of order.

FLIP UP TABLET

The tablet's size is 18" x 14" x 3/4", and it can be located on either side of the recliner (must be specified if being ordered with the recliner). It is available in Beech and Maple Veneer, as well as Plastic Laminate with a Polymer edge. It folds flat (protruding 3" from the side of the recliner when flat). Please specify whether a right-handed or left-handed position is needed when ordering. The Ottoman activation lever is specified either left or right handed based on a position facing the unit and opposite to where the tablet appears.

PUSH BAR

This is a standard feature on the Jordan recliner when ordered with casters, ergonomically designed to assist care-giving staff in the movement and operation of the recliner, and reduce back strain on the caregiver.

FINISH DURABILITY

The Krug Enduraguard finish, a proprietary catalyzed varnish formulation, has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

URETHANE ARM CAP & ARM

The urethane arm cap and full urethane arm provides enhanced durability and protection for the arms. The urethane arm cap is field replaceable if damaged or degraded.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

SWING AWAY TABLET

The Swing Away Tablet (24" x 14 3/4" x 3/4") is designed to be easily operated by the caregiver or user. The Break Away design allows for the tablet to be easily pushed away from the user in an emergency to gain quick access to the patient. The tablet has the ability to slide up and fold over and rotates 180 degrees. The kidney shaped design is ideal for use as an eating, writing or work surface. The Ottoman activation lever is specified either left or right handed based on a position facing the unit and opposite to where the tablet appears.

PATIENT TRANSFER ARM

The Patient Transfer Arm is designed to fold down where the arm is level with the chair seat. This design allows the caregiver to easily transport patients from the chair to bed or wheelchair. The arm is folded down by accessing the adjustment lever at the side of the chair. The Patient Transfer Arm is specified in a right or left handed position based on facing the unit. Please note, the Patient Transfer Arm cannot be located on the same side as IV Poles and opposite side to the ottoman lever. Not available on Bariatric Recliners.

CENTRAL CASTER LOCKING SYSTEM

Available as an upgrade option on

- 3 position Recliner
- 3 position Recliner with Trendelenberg
- Bariatric Recliner
- Sleep Recliner

Allows for single action locking of all four (4) casters at one time. Casters are locked both directionally and rotationally, keeping the recliner in place when locked. Color coded external foot pedal (Red for lock, Green for unlocked) is mounted at the rear outside of the arm. Unless requested otherwise the foot pedal is on the bottom of the Right hand (seated) arm. Central locking casters are 4" diameter with soft wheel treads. Recliner Central Locking System is available for an upcharge of \$680 list.

JORDAN INFUSION RECLINERS

HEAT / MASSAGE

Built in heating and vibratory massage systems are available on Jordan Recliners. Specially equipped Recliners come with combination massage and heat, located in the seat and lumbar zones, with separate controls and intensity. Controls are conveniently placed for the user to access. 110 volt receptacle access within 6 feet of the unit is required. The upcharge for the Infusion Recliner Heat/Massage is \$585 list. Not available on Bariatric Recliners.

JORDAN | RECLINER & BARIATRIC RECLINER FEATURES (Continued)

OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. **Moisture Barrier & CAL 133** is available for an upcharge of **\$40 list** per yard.

Removable Covers and Replacement Components

Jordan Recliner chairs are available with **Removable Seat Covers** for an upcharge of **\$80 list** per seat. Jordan Recliner chairs are available with **Removable Back Covers** for an upcharge of **\$90 list** per back. Jordan Bariatric Recliner chairs are available with **Removable Seat Covers** for an upcharge of **\$95 list** per seat. Jordan Bariatric Recliner chairs are available with **Removable Back Covers** for an upcharge of **\$110 list** per back. Removable seat and back covers can be quickly installed on Jordan products that were originally ordered with the Removable cover option. Removable seat and back

covers can also be installed on Jordan products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

Jordan Recliner is load rated to 350 lbs.

Jordan Bariatric Recliner is load rated to 500 lbs

ADDITIONAL FEATURES

- Lifetime warranty
- Greenguard certified

- Spring seat construction, providing exceptional comfort and longer life for seat foam.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat molds. Multi-density foam, provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.
- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CTB 133/ ASTM E-1537 with appropriate upholstery covers

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

PATIENT TRANSFER ARM:

Jordan Recliners and their replacement arms are available with the option of a patient transfer arm, see image. Patient Transfer Arms cannot be used in conjunction with accessories such as the IV Pole on the same side as the transfer mechanism. To order the Patient Transfer Arm, please refer to the Product Code Key, under Arm Style and apply the following **\$590 list** upcharge to the recliner pricing. Please note, the Patient Transfer Arm is specified either right or left handed based on a position facing the unit.

SWING AWAY TABLET

Jordan Recliners are available with the Swing Away Tablet, for an upcharge of **\$290 list**.

Jordan Sleep Recliner is load rated to 350 lbs.

Jordan **replacement parts** pricing can be viewed on-line at www.krug.ca

PRODUCT & ORDERING INFORMATION:

- All Jordan Recliners components are specified either left or right handed based on a position facing the unit.
- Jordan Sleep Recliners are available with a **swing away tablet**, for an upcharge of **\$290 list**.
- Jordan Sleep Recliners ship with the back apart from the chair folded down inside the packaging.
- Lifetime warranty - This warranty does not apply to components not manufactured by Krug. The Jordan Sleep Recliner 4 Position Infinitely Adjustable Mechanism is warranted for one year after purchase.
- GREENGUARD™ certified

FEATURES:

For a complete list of features see page 57.

JORDAN SLEEP RECLINERS FEATURES

HIGH DURABILITY MECHANISM

The standard mechanism was designed for high-traffic, intensive use in care-giving environments. It is built with high-strength steel, and includes Delrin™ wear pads between moving components for added smoothness and longevity.

4-Position Infinitely Adjustable Mechanism

This mechanism provides 4 user positions: Position A - Seated with feet on the floor, footrest in down (closed) position. Seat-back angle is 102 degrees. Position B - Footrest is fully extended, without compromising the upright position of the back. The seat-back angle remains at 102 degrees. Position C - Is the actual range of infinite adjustability from the seated position of 102 degrees back angle to the fully reclined - lay flat position. Position D - Is the full sleep position where the back and the seat are parallel to the floor and the unit is fully open at 180 degrees. The Infinitely Adjustable Back angle can be locked in any position with the back adjustment lever that goes to a maximum of 180 degrees when fully extended.

BACK ADJUSTMENT LEVER

The Jordan Sleep Recliner comes with the back adjustment lever which creates an infinite number of back adjustments within the chair. The back adjustment lever comes in a black plastic finish on the caregiver side. The standard position when ordering is left hand based on a position facing the unit, unless specified otherwise.

OTTOMAN LEVER

Jordan Sleep Recliner comes with the ottoman lever, which extends and closes the built-in foot rest. The ottoman lever comes in a powder-coated titanium finish to match the casters. The standard position when ordering is a left hand position based on facing the unit, unless specified otherwise.

CASTERS

Available on the Jordan Sleep Recliner are (4) - 4" diameter soft wheel swivel locking casters, featuring a large, easy-access foot activation and release lever. The casters are locked both directionally and rotationally, keeping the recliner securely in place when locked. Note: Sleep Recliners are not designed or intended to be used as patient transport devices.

LEGS

Jordan Sleep Recliners are available with wood legs - in either Beech or Maple. Two options exist for glides on the Jordan Sleep Recliners. The white nylon glides are ideal for use on flooring that is easily marked. The stainless steel glides should be utilized for all other types floor surfaces. The stainless steel glide is provided when ordering the Jordan Sleep Recliners unless the white nylon glide is specified. The white nylon glide is available at the same price as the stainless steel option.

IV POLE & HOLDER

The Jordan IV Pole is height adjustable (in a range of 27"), and can be added in the field. It can be located in any of two locations (left or right position on the back). If ordered with the Sleep Recliner, the location must be specified at time of order. The IV Pole cannot be located on the same side as the Patient Transfer Arm.

PATIENT TRANSFER ARM

The Patient Transfer Arm is designed to fold down where the arm is level with the chair seat. This design allows the caregiver to easily transport patients from the chair to bed or wheelchair. The arm is folded down by accessing the adjustment lever at the side of the chair. The Patient Transfer Arm is specified in a right or left handed position based on facing the unit. Please note, the Patient Transfer Arm cannot be located on the same side as IV Poles and opposite side to the ottoman lever. Not available for Bariatric Recliners.

FLIP UP TABLET

The tablet's size is 18" x 14" x 3/4", and it can be located on either side of the Sleep Recliner (must be specified if being ordered with the sleep recliner). It is available in Beech or Maple Veneer, as well as Plastic Laminate with a Polymer edge. It folds flat (protruding 3" from the side of the recliner when flat). The Ottoman activation lever is specified either left or right handed based on a position facing the unit and opposite to where the tablet appears.

SWING AWAY TABLET

The Swing Away Tablet (24" x 14 3/4" x 3/4") is designed to be easily operated by the caregiver or user. The Break Away design allows for the tablet to be easily pushed away from the user in an emergency to gain quick access to the patient. The tablet has the ability to slide up and fold over and rotates 180 degrees. The kidney shaped design is ideal for use as an eating, writing or work surface. The Ottoman activation lever is specified either left or right handed based on a position facing the unit and opposite to where the tablet appears.

PUSH BAR

This is a feature on the Jordan sleep recliners and is ergonomically designed to assist the user in the movement and operation of the sleep recliner, and reduce back strain on the caregiver. The Push Bar comes in a titanium finish to match the casters. The Push Bar can be retrofitted in the field, if not previously ordered on Jordan Sleep Recliner unit.

URETHANE ARM CAP & ARM

The urethane arm cap and full urethane arm provides enhanced durability and protection for the arms. The urethane arm cap is field replaceable if damaged or degraded.

ANTI-MICROBIAL FINISH

Jordan wood surfaces come with a uniquely-formulated anti-microbial finish that inhibits the growth of molds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

FINISH DURABILITY

The Krug Enduraguard finish, is a proprietary catalyzed varnish formulation, and has been repeatedly shown, through independent laboratory testing, to be the industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

JORDAN | SLEEP RECLINER FEATURES (Continued)

CENTRAL CASTER LOCKING SYSTEM

Available as an upgrade option on

- 3 position Recliner
- 3 position Recliner with Trendelenberg
- Sleep Recliner
- Bariatric Recliner

Allows for single action locking of all four (4) casters at one time. Casters are locked both directionally and rotationally, keeping the recliner in place when locked. Color coded external foot pedal (Red for lock, Green for unlocked) is mounted at the rear outside of the arm. Unless requested otherwise the foot pedal is on the bottom of the Right hand (seated) arm. Central locking casters are 4" diameter with soft wheel treads. Recliner Central Locking System is available for an upcharge of **\$680 list**.

JORDAN INFUSION RECLINERS

HEAT / MASSAGE

Built in heating and vibratory massage systems are available on Jordan Recliners. Specially equipped Recliners come with combination massage and heat, located in the seat and lumbar zones, with separate controls and intensity. Controls are conveniently placed for the user to access. 110 volt receptacle access within 6 feet of the unit is required. The upcharge for the Infusion Recliner Heat/Massage is **\$585 list**.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

COMBINATION UPHOLSTERY OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Moisture Barrier & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133. The

application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. Moisture Barriers & CAL 133 is available for an upcharge of **\$40 list** per yard.

Removable Covers and Replacement Components

Jordan Recliner chairs are available with Removable Seat Covers for an upcharge of **\$80 list** per seat. Jordan Recliner chairs are available with Removable Back Covers for an upcharge of **\$90 list** per back. Removable seat and back covers can be quickly installed on Jordan products that were originally ordered with the Removable cover option. Removable seat and back covers can also be installed on Jordan products that were not originally ordered with the Removable cover option, with some simple staple removal on the original seats and backs.

WEIGHT CAPACITIES

Jordan weight capacities are as follows:

PATIENT TRANSFER ARM:

Jordan Sleep Recliners and their replacement arms are available with the option of a patient transfer arm, see image. Patient Transfer Arms cannot be used in conjunction with accessories such as the IV Pole on the same side as the transfer mechanism. To order the Patient Transfer Arm, please refer to the Product Code Key, under Arm Style and apply the following **\$590 list** upcharge to the recliner pricing. Please note, the Patient Transfer Arm is specified either right or left handed based on a position facing the unit.

SWING AWAY TABLET

Jordan Sleep Recliners are available with the Swing Away Tablet, for an upcharge of **\$290 list**.

ORDERING NOTES:

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

Jordan Sleep Recliners are available with a **Moisture Barrier & CAL 133** for an upcharge of **\$40 list** per yard.

Jordan Sleep Recliners are available with Removable Seat Covers for an upcharge of **\$80 list** per seat.

Jordan Sleep Recliners are available with Removable Back Covers for an upcharge of **\$90 list** per back.

NOTE: Some vinyls, leathers and upholsteries are not suitable for application on Jordan seating.

The approval process is as follows:

1. A sample of the COM must be provided to Krug Customer Service prior to or at the time of order. For Maharam or Momentum, Krug will obtain the upholstery cover sample.
2. The sample will be reviewed and the customer advised if the upholstery cover is unsuitable.
3. The COM upholstery cover or leather will be inspected when received at the factory, to identify any further concerns with its suitability.

Jordan Two-Seat Sleeper is load rated to 525 lbs.

Jordan replacement parts pricing can be viewed on-line at www.krug.ca

For a complete listing of features see page 62.

JORDAN | SLEEPERS FEATURES

HIGH DURABILITY MECHANISM

The Jordan Sleepers mechanism was designed for high-traffic, intensive use care-giving environments. It is built with a heavy-duty, powder-coated metal components to increase the strength and overall durability of the product.

CASTERS

3" Casters are available on the Jordan Sleepers and feature two soft wheels, which lock and include an easy access foot activation and release lever. The casters can be locked both directionally and rotationally, keeping the sleepers securely in place when locked.

ANTI-MICROBIAL FINISH

All Jordan wood surfaces come with a uniquely formulated anti-microbial finish that inhibits the growth of moulds and mildews. Surfaces coated in this finish will have reduced fungal growth, and spores from germs, microbes and bacteria will not multiply on the wood.

WALL SAVER DESIGN

The shape of the arm is designed to keep the back away from the wall (in a locked position), to prevent wear and damage to both the chairs and to the walls of the facility.

URETHANE ARM CAP

The optional arm cap provides enhanced durability and protection for the arms. This component is field replaceable if it becomes damaged or degraded.

THREE POSITION SLEEPERS

Jordan Sleepers have three positions and potential uses - as a lounge chair, as a chaise lounge, and as a sleeper - each of which can be quickly converted to with minimal effort. Sleepers do not have to be moved out from the wall in order to pull out into the chaise or sleeper position, and they do not impact the wall when being opened or closed.

HEAVY DUTY HARDWARE & CONNECTIONS

High strength steel mechanisms are joined to other components in Jordan Sleepers products with hardened steel bolts and metal inserts, ensuring exceptional durability, strength and on-site replacement of damaged or degraded components.

FINISH DURABILITY

Is a catalyzed varnish formulation that has been repeatedly shown, through independent laboratory testing, to be an industry leader in durability and abrasion resistance. The Krug finish looks better longer than competitors, and is uniquely suited to the demands of healthcare environments.

REPLACEABLE COMPONENTS

Healthcare furnishings are constantly subjected to intensive use, and even damage. Jordan Sleepers are uniquely designed to allow virtually all major components - mechanism, seat, back, arm panels, legs, etc... - to be field replaced, providing a very cost effective means to significantly extend the life of the product. This includes the option of removable upholstery covers on seats and backs, to allow cleaning, repair and replacement.

LATEX FREE

Krug products are made with latex-free materials to prevent the allergic reaction that latex causes in some people.

JORDAN | SLEEPERS OPTIONS

COMBINATION UPHOLSTERY OPTIONS

Combination upholstery (more than one upholstery cover within the same unit) is an option on all Jordan upholstered products. When combination upholstery is with upholstery of the same grade or COM, an upcharge for dual fabrics is **\$20 list** per unit and **\$40 list** per unit for three fabrics. When graded in combination upholstery is selected, use the highest grade upholstery selected or contact Customer Service for a quote -please provide the fabrics specified and a description of where each fabric is to be applied on the product in order to obtain a quote.

MOISTURE BARRIER & CAL 133

California Technical Bulletin 133 is a flammability test for seating. Krug offers a compliance method, in combination with non-flammable upholstery covers, may enable products to meet certification requirements for this test. This process at the same time also provides the products with a Moisture Barrier - a treatment that helps to prevent the passage of liquids and moisture to inside of the upholstered components - thereby conferring sanitary and anti-infection benefits. So when CAL 133 is specified, the product also automatically has a Moisture Barrier, and when a Moisture Barrier is specified, the product also features the compliance method and low flammability features of CAL 133.

The application of this up-charge and the compliance method does not mean that the specific configuration of product and upholstery cover are tested and officially certified as being CAL133 compliant. If the official certification is

required, Krug will provide this (through an independent certified testing laboratory) at a charge of \$700 per item, plus the cost of the product to be tested. Lead time for certification testing is typically 4-8 weeks. **Moisture Barrier & CAL 133** is available for an upcharge of **\$40 list** per yard.

REMOVABLE COVERS AND REPLACEMENT COMPONENTS

ONE-SEATER OPTIONS:

Removable Seat Covers- \$126 list per seat
Removable Back Covers- \$120 list per back
Removable Ottoman Covers- \$126 list per ottoman

TWO-SEATER OPTIONS:

Removable Seat Covers - \$195 list per seat

Removable Ottoman Covers - \$195 list per ottoman

JORDAN | SLEEPERS OPTIONS (CONTINUED)

ADDITIONAL FEATURES

- LIFETIME WARRANTY
- GREENGUARD CERTIFIED 
- Spring seat construction providing exceptional comfort and longer life for seat foam.
- Jordan sets a new standard for comfort and ergonomics in healthcare seating. Designed for ergonomically-correct posture and long-term sitting comfort, with contoured back and seat moulds. Multi-density foam provides lumbar, thoracic and pelvic support, while encouraging a healthy sitting posture.

- Large, rounded arms provide support for safe and easy ingress and egress.
- Certified to meet CAL 117 with most upholstery covers
- Jordan Sleepers seating has been tested to FNAE-80-214A.
- Jordan replacement part prices can be viewed on-line at www.krug.ca

JORDAN | SLEEPERS WARRANTY

Krug warrants the assembly, construction and finish of the Jordan Sleepers to be free from defects in materials and workmanship for the lifetime of the product's use (lifetime is defined as the time period it is owned and used by the original purchaser). This warranty, which runs from the date of manufacture, covers defects in materials and workmanship found during normal use of the product. It does not cover defects arising from improper or excessive usage, negligence, lack of or improper maintenance, cleaning and care, damage arising from cleaning solutions, or from transporting of patients (Jordan Sleepers are not designed for transportation of people). The mechanism within the Sleepers is warrantied for two years from date of shipment. The warranty is

not applicable for the mechanism if it has been damaged, degraded or broken by improper or excessive usage of the Sleepers - correct operation of the Sleepers requires care and use of the handholds for opening and closing.

The preceding is a partial warranty statement specific to the Jordan Sleepers - Krug's complete general warranty statement for this product can be found in the Jordan general price list.

JORDAN | SLEEPERS INSTRUCTIONS

CONVERSION FROM CHAIR TO CHAISE TO SLEEPER (TO OPEN SLEEPER)

1. Lock the casters in a forward position and pull handle away from chair. Pull the strap upwards and away from the chair.
2. Pull firmly on the handle away from the chair to lower the back.

CONVERSION FROM SLEEPER TO CHAISE TO CHAIR (TO CLOSE SLEEPER)

1. Lower the ottoman back down and push the front kickplate towards the chair. Push front kickplate and seat into chair until you see the back "pop up."
2. Push firmly until you hear a "click" which means the sleeper has locked into the upright position.
