Caravaggio P4

Caravaggio P4 is a series of metal pendants with an eye-catching high gloss lacquer. The suspension technology is masculine in construction, creating the right counterbalance to the shade's feminine lines. This pendant looks its best in large high ceiling rooms, whether this is business premises, public environments or in private homes. There are three different versions of the P4 pendant. The E27 version gives a soft comfortable light, particularly suitable for the private market and interior applications where the goal is to create a pleasant atmosphere. This pendant is named after the Italian Baroque painter Caravaggio, who is known for his dramatic paintings with large contrast between light and shadow. The Caravaggio pendant lamp is made of drawn steel and coated with smooth, high-gloss painting.

Surface

High gloss lacquer.

Material

Shade: Drawn aluminium.
