Juicy P

Juicy is designed with the ambition of creating the optimum, energy-friendly pendant for the dining table, which provides the table with concentrated, non-dazzling light. The various parts of the lamp; the wire, cone and shade come together seamlessly which makes the pendant seem like an organic whole. Towards the bottom Juicy is finished off with a honeycomb-filter, which effectively concentrates the light while preventing dazzling at the same time. It softens the light and contributes to the experience of a warm and friendly light – regardless of whether you use traditional low-energy light sources or the latest LED alternatives. Quite specifically, Juicy is created to utilise the light source technology of the future in the best way possible.

Surface

Black/white high-gloss lacquer.

Material

Shade: Drawn aluminium. Cone: Die-cast zinc-alloy. Honey-comb-filer: Polycarbonate.

Installation

Suspension: White pvc cable 2x0,75mm².
