

Joel **Berman** Glass Studios

Berman Resin + **The Environment**

OUR COMMITMENT

"At Joel Berman Glass Studios we are committed to understanding global environmental issues, finding ways within our organization to minimize our impact on the environment, and helping to create a more sustainable future." – Joel Berman, founder and president

RESIN RECLAMATION

All of Joel Berman Glass Studios' Clear, Organic Green, and PETG resin products are recyclable, and will be accepted for recycling free of charge at the company's Seattle, Washington facility.* Resin received in this manner will be recycled and made into new products.

CRADLE TO CRADLEsm

A popular choice of resin material for projects requiring added fire safety qualifications, the PETG resin used to manufacture Berman Resin products has achieved Cradle to Cradlesm Silver Certification. In addition to being an excellent choice of material for appearance, style and performance, specifying Joel Berman Glass Studios' PETG resin provides the added assurance that the material can be reprocessed repeatedly without being discarded.

* Recycling projects are subject to pre-approval by Joel Berman Glass Studios. Costs to ship resin to Joel Berman Glass Studios' Seattle, Washington facility for recycling are to be borne by the sender.
