

Suite Tandem

Suite Tandem

Compose space however you like with Suite Tandem, an impressive collection of seating and tables that adds a compelling presence to any environment.

Replaceable components—from arm caps to seat frames and everything in-between—ensure lasting peace of mind, while thoughtful details such as a passive-flex back, clean-out feature and wall saver leg provide even greater purpose and functionality. Offering a welcome retreat for long and short-term visitors alike, Suite is comfortably appealing and responds to changing needs with ease.

Bariatric models accommodate up to 500 pounds and are available as stand-alone units or in combination with standard tandem seating and tables.

Arm cap options include Beech wood, black urethane or Corian®, all of which are field-replaceable for convenience.

Seating available in two and three seat combinations or as reconfigurable modular units.

 **Encore**

A versatile selection of connecting table sizes and finishes – including twelve laminate and eight Corian® selections – provide solutions for every space.
