Re: Potential LEED credits for projects using Debolon (*based on LEED-NC, version 3*)

To whom it may concern:

Indoor Environmental Quality Credit 4.1 (1 point): Low Emitting Materials: Adhesives & Sealants

Mats Inc. Perma-Bond adhesive has a low VOC content (3 g/L) which reduces the quantity of indoor air contaminants. The VOC limit required by LEED for Multipurpose Construction adhesive is 70 g/L. Perma-Bond may contribute to LEED IEQ Credit 4.1.

Indoor Environmental Quality Credit 4.3 (1 point): Low-Emitting Materials - Flooring Systems

Debolon meets the requirements of the Resilient Floor Covering Institute's FloorScore[®] program. Debolon is FloorScore[®] certified. Debolon may contribute to LEED IEQ Credit 4.3.

Materials & Resources Credit 4 (1 - 2 points): Recycled Content

Debolon is manufactured from approximately 5% pre-consumer recycled content. Debolon may contribute to LEED MR Credit 4.

Materials & Resources Credit 6 (1 point): Rapidly Renewable Materials

Debolon reduces the use of and depletion of finite raw materials and long-cycle renewable materials by replacing them with rapidly renewable materials. 10% of Debolon is made of rapidly renewable material. Debolon may contribute to LEED MR Credit 6.
